INTRODUCTION

"He who fights with monsters might take care lest he thereby become a monster. And if you gaze for long into an abyss, the abyss gazes also into you."

-Nietzsche

In 1995 Namco released *Tales of Phantasia*, a fantasy RPG with an action-oriented combat system that breathed new life to the RPG genre. Ever since, the devastatingly popular series has spawned seven different games and an unforgettable formula that's kept fans happy ever since.

Enter *Tales of the Abyss*, a new iteration in the long-running series. This time around you control a young noble named Luke fon Fabre, a lost soul who has no recollection of his past. Thrust into a warring world controlled by a religious script called "The Score", Luke must battle his way through two opposing countries and the many doubts of his own worth to find the answer to a single question; can he live on without having a purpose?

As you play through the game you'll encounter new friends and a variety of towns full of bustling people. Explore your surroundings and speak to their inhabitants to receive clues to your next undertaking. Plow through the dungeons and enemies that attempt to thwart your path then move along to the next conquest. The ultimate goal is to find and defeat the final enemy of the game.

This guide and its many sections are to be used collectively as an all-in-one reference book. Look over the Training section before starting your journey to get a feel of the game systems it includes. When proceeding through the walk through, use the item lists and bestiary provided to view the statistics of the creatures and weapons you encounter. When you finally finished the game, refer to the Extras section for a few more goodies that await your curious eye.

With that said, enjoy your journey through Auldrant and make use of the collection of stratagems that we've included in this guide!

GAMEPLAY INFORMATION

MAIN MENU

Artes

The Artes Menu is where you can view each party member's artes' effects, costs and FOF enhancements. By pressing **SELECT** on a character's artes page, you can also set which artes you wish to assign to the D-pad in Manual or Semi-Auto control modes.

In Manual and Semi-Auto Mode it's possible to assign four of your artes to control commands. The command to the left of the arte's name shows which direction to hold on your control pad before pressing **○** (which initiates the arte). Because only four attacks can be brought into battle at a time, selecting the most useful set of artes is an important element of preparation before battle.

While inside the command assignment menu, scroll to the bottom of the four input options then press **+**. A menu showing assignment options for the right analog stick appears, giving you 4 additional input slots to use. There's an addition to this input method though; abilities used by other party members outside of the character you're manually controlling can be assigned to the right analog stick. With this ability, it's possible to command your other party members to initiate attacks on the fly without having to access the battle menu. This is the best route to take if you're looking to find an easier way to cast healing spells.

Equip

Give your party members a Weapon, Body Armor, Hand Armor, and other pieces of equipment so they're better suited to handle the battles ahead. When flipping through your available equipment, take note of the stats in the window to the left; green numbers mean an increase from your current equipment, while red means a decrease. Press **▶** to get the full info on a highlighted piece. You can also press **○** to sort your unused items either by: Category, Parameters, or Alphabetically.

Items

Manage your entire inventory from here. Items are split into six different tables: Tools, Weapons, Armor, Accessories, Food, and Special. Use **[F]** and **[B]** to cycle through each item type, and **[Left]** and **[Right]** to move your view a full page at a time. Some Tools can be used immediately from this menu, like Gels. If an item can be thrown away, you can do so with **[X]** (though there's little reason to throw away an item when you can sell it for Gald instead).

Battle

From here, you can alter your party's battle abilities.

AD Skills

This brings up a complete list of a character's learned AD Skills. These are learned when characters' stats reach a certain level. This isn't limited to Experience, but includes the Physical and Fonic stats as well. You can turn Skills on and off from the main menu with **[Y]**. Any "on" Skills are automatically used when the circumstances are right. The more Skills, the more well-rounded and battle-ready your characters are!

Strategy

When a character is not under direct manual control, their actions are dictated by the settings on this menu. First, you can control their actions in one of five different categories.

Target	Who they should focus on
TP	How much TP they should use in a battle
Action	What type of moves they most commonly use
Items	Under what circumstances they should use items
OL	Under what circumstances they should use Over Limit

Press **△** to shift to the formation grid, which lets you dictate where your party starts and how they position themselves in relation to the enemies.

By moving the cursor up to the Command setting, you can shuffle between several pre-set party strategies, which alter all parameters. Of course, you can then fine-tune the strategies as you see fit.

Cooking

Cooking is a quick way to boost your lost points after a battle. From this menu, you can assign available dishes to each character, placing them in the crosspad shortcuts for quick fixing.

Food Data

See the Food section for an in-depth look at all ingredients and recipes available, and their effects.

Status

Check out each party member's stats at a quick glance. Numeric stats, equipment, Titles, and more. Shuffle between characters with **□** and **△**.

You can change each character's current Title from here as well. Having a certain Title up can alter how certain NPCs react and certain events occur. The right Title can give you a discount at a shop, increase your chance of finding items, or other interesting effects!

See the individual character sections for more on their Titles.

Library

Various texts can be found in this menu.

Synopsis

As you progress, Luke writes down the events in his journal. This makes for a handy overview of the game's plot. Forget how one event led to another? Check it out here!

World Map

Check out your map (once you've obtained it) to find your current position, plus the locations of all the Towns, Dungeons, and other important locales you've visited.

Collector's Book

A catalogue of every single item in the game, filled out as you obtain each kind of item. Can you complete it?

System

From here, you can save or load your game, alter some of the system options (text speed, battle difficulty, voices, etc), or check your "records", which keeps track of a wide variety of gameplay statistics.

MIEU ACTIONS

You'll eventually run into a cute animal named Mieu, a cheagle from Cheagle Woods. This little ball of fun has a variety of abilities that can help aid Luke on his quest. These abilities are initiated by pressing **□** in dungeons. Use **△** and the left analog stick to toggle through the entirety of Mieu's abilities.

Mieu Fire

Mieu shoots a ball of fire - with limited range - directly ahead of you. This can have a wide variety of effects: open paths, start sub-events, or simply annoy enemies on the map.

Mieu Fire 2

As an upgraded version of Mieu's fire, this technique travels for a longer period of time. It also doesn't dissipate after hitting a torch, enabling it to hit multiple torches at a time.

Mieu Attack

Mieu leaps from Luke's shoulders and dives downwards at an angle. This ability is useful for breaking obstructing objects and hitting some switches.

Mieu Wings

Unexpectedly, the blue fuzz ball has the ability to carry his master into the air for a short period of time. This comes in handy for grabbing those hard to reach ladders scattered throughout Aldrant. It's even useful for hitting switches in high places.

CONVERSATIONS

As you play, sometimes a notice pops up in the lower-left-hand corner of the screen, depending on what events you have completed.

Pressing **ENTER** at this time starts a conversation (also known as a "skit") between your party members. Simply sit back and read what's on everyone's minds. The sum total of conversations you've seen is recorded in the Records page of the main menu.

SEARCH POINTS

Scattered across the world map are glowing "Search Points". Enter these points and check them out to pick up a variety of items that can be traded in at Din's shop in Chesedonia. Keep checking until the point runs dry. These Search Points reset every time you enter a Town or Dungeon, so if there's one close by, you can rapidly build up a hefty stock of items in record time! The value of the items you get from searching all hinge on the Luck of your party, though there is a way to improve your odds...

THE NATALIA EFFECT

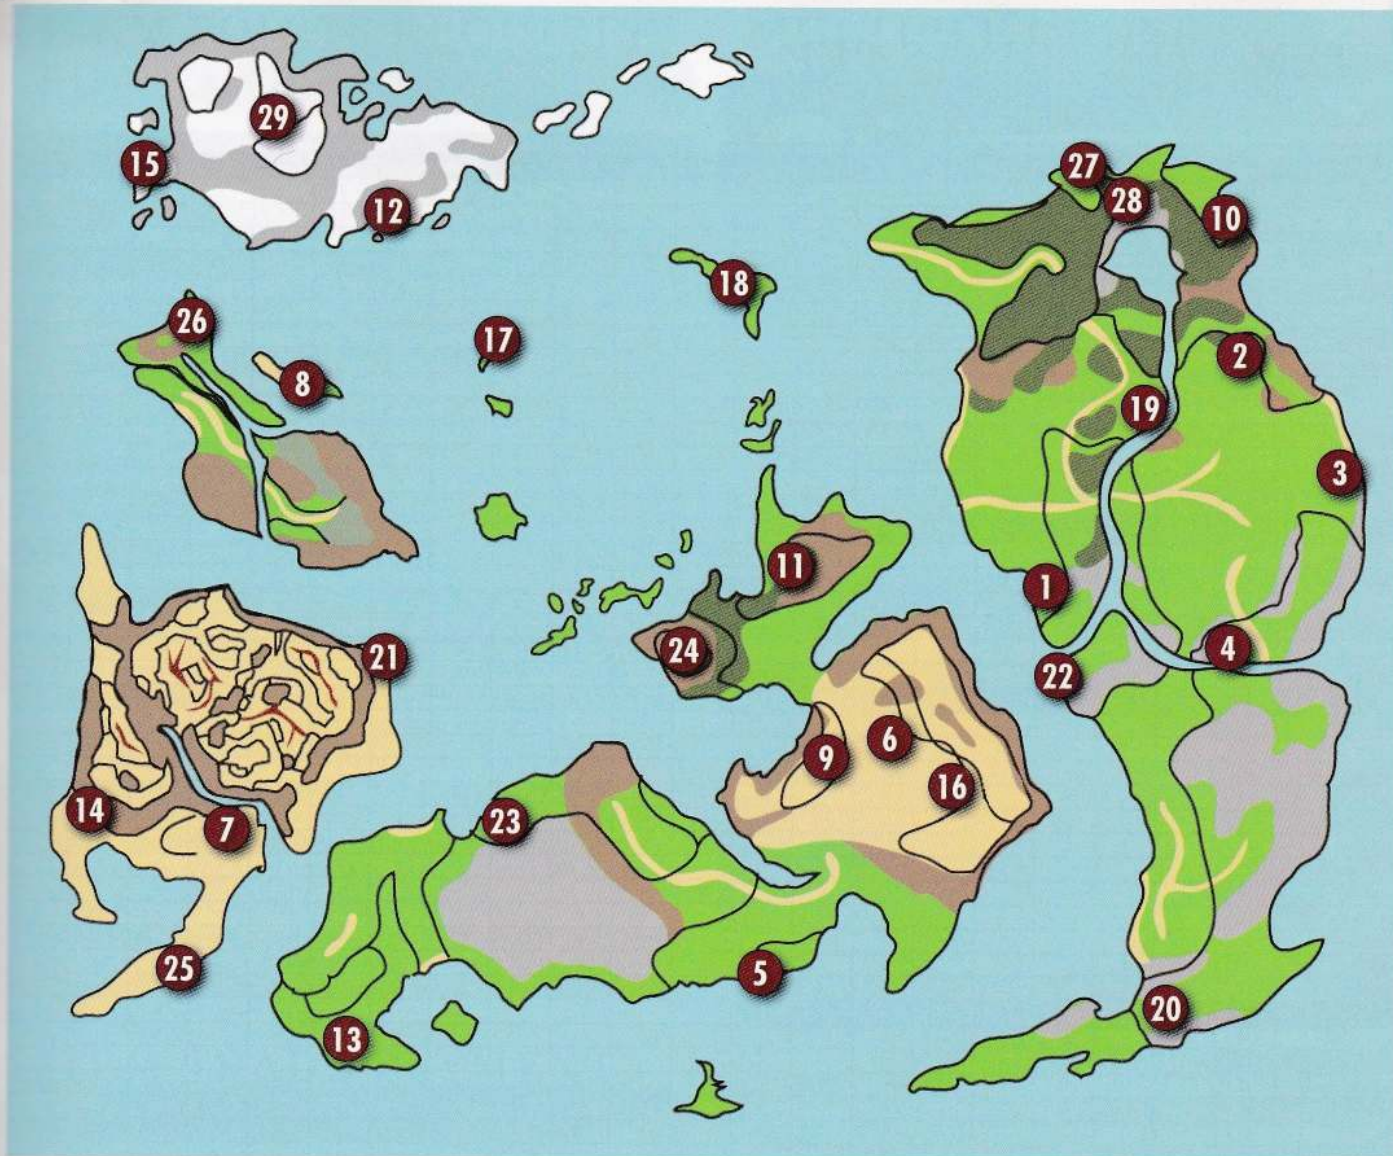

Depending on Natalia's Title, the chance of finding certain types of items changes. Below is a table that goes over a few of Natalia's Titles and how they affect the procurement of Search Point items.

Title	Effect
Curious Princess	Low Value +80%
Star of Malkuth	Normal Value +80%
Labyrinth Princess	High Value +80%
Adventurous Princess	Highest Value +80%

There are certain Points that only appear during specific sub-events. Once the sub-event is completed, the Search Point is gone forever.

ITEM CREATION

Once you have some trade items, Din's shop in Chesedonia takes them in. Din can order items for you in exchange for these materials. Keep

giving Din your Trade Items to increase the number of Points you have (each trade item gives a certain number of points per type of orderable item). The more Points, the higher your rank, and the more items are made available to you when you decide to place an order.

Cheap Items Add Up

Some Trade Items are pretty worthless. Din takes them, but you'll only get a paltry 20 Gald each for them. Still, that can add up...

When you're ready to place an order, Din asks you what Category of Item you want, then the Type. You can't order *specific* items, but there are ways to influence what Items you get from your order.

Once you place an order, a check is run to determine the order's success. No matter the outcome of the check, an item is created. However, a failed check means you get the item from the current Rank that requires the *least* amount of points! A successful check results in much better items. The more points you have, the better the item!

When you place an order, Din also asks if you'd like to make an additional Gald payment; a small, medium or large payment. Depending on the type of item you're ordering and your current Rank, the amount of Gald you can give increases. Of course, you don't have to give him any extra Gald if you don't want to.

ITEM TRADE PAYMENT AMOUNTS

Category	Rank	Small	Medium	Large

	A	8000	19200	44000

The size of your payment affects the results of your order. Naturally, the larger the payment, the more favorable are the results. A lower rank with a high payment can result in a higher-ranked item. A higher rank with a lower payment can result in multiple lower-ranked items.

TLP SYSTEM

As you perform certain favors and sub-events, you accumulate "Town Link Points". These points affect the flow of items from one town to another; the more points you have, the easier it is for items to get from the producing town to the stores of other towns. This translates into the price of items in those towns going down!

Shop Listings

See the Shop listing for a more in-depth look at how TLP affects each shop's prices.

CAPACITY CORES

Every time your character levels up, a myriad of statistics are gained (which can be viewed in the status menu). Capacity Cores manipulate the statistics you gain, including additional points to the base statistics obtained after a level up. Because of their ability to allow the player to determine what stats you're gaining, Capacity Cores are invaluable for learning the specific AD Skills you're looking for.

C. Core Name	Description	P. ATK	P. DEF	F. ATK	F. DEF	AGL	ENH	How to Get

ARTES EXPLANATION

Every character has a select number of magical special attacks at their disposal; most of which are only used in battle. These attacks are initiated with  in combat and come at the cost of TP (Technical Points). These moves are referred to as "Artes", and they're a vital aspect of combat.

BASE ARTES & ARCANES ARTES

Physical artes come in two types: base and arcane artes. Base artes are weaker special attacks that act as eventual catalysts for arcane artes. Many arcane artes require two base artes to be used a number of times before the arcane arte becomes available for use. The number of times an arte has been used is located in the Artes menu, directly under the attack's TP amount. Whether an attack is a base or arcane arte is also listed in the artes menu just under the attacks name.

It's important to use base artes as often as possible when they're first obtained. More and more arcane artes can only become available when base artes are used, so use them constantly for your character to continue to grow.

FONIC ARTES

Casting characters such as Jade or Tear focus on fonic artes, spell abilities that require a long period of charging to initiate. These artes make up for their long casting periods with potent damage ratings and wide areas of affect. Some fonic artes also have restorative capabilities, making them essential for battle.

MYSTIC ARTES

Every character has an extremely powerful attack at their disposal that can only be performed while they're in Over Limit mode. The command for this attack varies depending on the character being used. Refer to each individual character section for the commands of each Mystic Arte.

FON SLOT CHAMBERS

Artes can be upgraded through the use of "Fon Slot Chambers"; items that add special properties to special moves. These properties consist of a variety of things ranging from extra damage to extended stun times. Some properties are extremely rare, like the steal property, which

enables an arte to sometimes take items from an enemy. The properties a chamber gives an arte are listed within the F.S Chamber menu at the bottom of the screen.

Equipped F.S. Chambers level up as the artes they're equipped to are used. A level is gained for every 20 uses of the technique. It must be used 100 times to reach the maximum level of 6. The higher the level, the bigger the chance of the FS Chamber's effective initiating.

Chamber Level	Chances of Effect Initiation
Level 1	0% - 19%
Level 2	20% - 39%
Level 3	40% - 59%
Level 4	60% - 79%
Level 5	80% - 99%
Level 6	100%

--

FIELD OF FONONS (FOF)

When certain fonons gather and concentrate in one area, a field is created based on a natural element. These fields appear in battle as colored rings. When a character is placed inside a ring, the field can be used as a catalyst to initiate upgraded versions of artes. The artes in question can only be improved by a specific type of element (which is mentioned under each artes description in the main menu). These elements consist of the first fonon (Dark), second fonon (Earth), third fonon (Wind), fourth fonon (water), fifth fonon (fire), and the sixth fonon (light). These masses of elemental energy are called Fields of Fonons.

To create a FOF, commence an attack or spell that exerts a specific element. A circle should appear at the base of the attack. The size of the circle is dependant on the ability that creates the FOF. For instance, physical artes create fields that are only 25% of the size of a normal field. Spells create slightly larger fields depending on the level of the spell, those levels being Novice (50% FOF), Mid (75% FOF), and High (100% FOF).

Once your character is standing inside the FOF, use a technique or spell with a matching element to commence the new attack. Note that in the case of spells you don't actually have to stand in the FOF field; the spell itself can simply detonate inside the FOF to activate the new attack.

Rules of Engagement

Upon running into an enemy on the field map, battle mode initiates. Your party members are dispersed across the field in a specific formation (determined by you in the strategy menu). A specific Hit Point rating (HP) is given to every character on the field. Attacking enemies lowers their overall HP value, while being attacked lowers yours. When a character's HP value reaches 0, they become Knocked Out (KO). If all of the enemies on the field are KO'd, you win. If your entire party becomes KO'd, the game is over.

The goal of battle is to defeat the enemy party. Press **X** to initiate attacks, while using **Y** to defend against the opposing enemy's offense. Unleash special Strike and Fonic Artes by pressing **Y**, which expels the TP gauge just below your HP. Play smart, use the abilities at hand, and lay waste to the foes attempting to thwart your journey!

Variable Attacks

Normal attacks performed with **X** come in different flavors. Pressing **Y** + **X** initiates a leaping attack that's strong against flying enemies. Pressing **Y** + **X** initiates an uppercut attack that lifts the enemy off of the ground. Pressing **Y** + **X** initiates what's considered to be a "wide swing" that often hits characters in an arc (not true for all characters). Learn to use upward swings to deal with flying enemies, while saving ground based attacks for the things that dwell below.

Important AD Skills

Magic Guard

While holding **Y**, press **Y** to initiate the Magic Guard technique. This ability lowers the damage taken from enemy spells. Since some spells have areas of effect large enough to make them difficult to avoid, the Magic Guard can be used as a last second effort to reduce the damage from the incoming blast.

Free Run

Hold **Y** then press any direction on the left analog stick to initiate 360 degree character movement. Free Run is a vital aspect to every fight you'll encounter right from the get go. Because enemies utilize attacks with limited horizontal range, Free Run movement can be used to avoid such attacks and open windows to mount a counter attack. It's also great for circling to your enemy's rear or to avoid incoming spell blasts.

Recover

Press **Y** after getting knocked into the air to flip to your feet and land safely. This ability helps retain your footing after taking a heavy blow, which usually leaves you lying on the ground vulnerable to enemy attack. Use the Recover technique to avoid that position altogether.

Back Step & Back Action

Hold **○** then press **+** to initiate a backwards hop. This ability is helpful for quickly evading close range attacks that can't be avoided with Free Run or normal movement. A specific moment where this is commonly used is after you've mounted an unsuccessful attack (which is guarded). Performing the Back Step just after you recover from your move may

evade the enemy attack, giving you enough time to regain your footing and attack them as they're recovering from their move. The Back Action AD Skill enables you to cancel the recovery of the Back Step into an attack, making the aforementioned technique easier to do.

Over Limit

Eventually your party learns an AD Skill called "Over Limit". This skill tacks on a meter directly below your TP gauge. As you attack enemies and take damage, this gauge slowly builds. When it reaches 100%, pressing **□** initiates Over Limit mode.

Over Limit mode brings a myriad of benefits to the table. For one, it can be activated while your character is in almost any state, including when you're being hit by an enemy. The initial "burst" effect of the Over Limit starting animation damages and knocks away any enemies that may be surrounding you. This enables you to use the Over Limit as a "combo breaker" of sorts; knocking your enemy away from you to keep them from assaulting you further. Second, your character will not stagger while in Over Limit mode, enabling you to attack your unwary foe regardless of what they're trying to do to you. Lastly, Mystic Artes become available later in the game, which are only usable while in Over Limit mode.

The Over Limit system's biggest asset comes with its ability to push your enemy away from you, regardless if you're being hit or not. When it comes to your enemy's most damaging attacks (like Mystic Artes), it's vital to have a last resort up your sleeve if you're in a vulnerable position. Save your Over Limit for these moments to minimize casualties!

Battle Menu

A battle based menu is available for use. Press **△** to bring it up. Explore the options available to you to meet the needs of your party members as they arise.

Artes

Just like in the normal menu, you can change your character's equipped artes here. It's also possible to initiate the artes of any of your available party members from this menu. This is especially useful when you need a character to cast a healing spell on a specific character when they aren't doing so by themselves.

Strategy

From here you can manipulate the way your party handles the opposing enemy. Some specific enemies may need to be targeted while the remainder of the group isn't a threat. Use this menu to change your party's targeting strategies or to adjust the way they expel TP.

QUICK STRATEGY CHANGE

While the Battle Menu is open, press **■** to toggle between a preset list of party commands; change your entire party's overall strategy with a button press. The options available include "Default", "Attack!", "Hold'em off!", and "On your guard!".

Equip

Change your equipment on the fly from here. Since equip-able items carry a wide range of effects useful for a variety of different enemies, being able to change items on the fly may be necessary.

Items

Use any of the tools available from here. With the constant barrage of enemy assaults thwarting your journey, tools become a necessity for a survival. Keep a long list of healing items and tools at all times.

Escape

Activating this item initiates Escape Mode. Once activated, a bar with the word "Escape" over it appears that slowly clocks down. Once it reaches zero, your party leaves the battle field. This feature is helpful for escaping high-risk battles that simply cannot be won through combat.

Combos

Whenever you hit a normal enemy, they go into a state called "Stagger". While staggered, the enemy cannot initiate an action, which includes defending, moving or attacking. In addition to this, the enemy is still vulnerable to follow-up attacks while staggered. Any attacks that connect after the first while an enemy is vulnerable in this manner result in a combo.

Combos are important for a variety of reasons. For one, initiating combos yields additional experience points at the end of a battle. The larger the combo, the more experience is earned. Two, since your enemy can't initiate any actions while they're being assaulted with a combination, you're completely safe to counter attack, essentially making them the perfect way to deal damage.

Keep in mind that there's one way for an enemy to escape Stagger if they're being pelted with a combination of attacks; the Over Limit burst. Many enemies will save their Over Limit gauge for just such a moment, so don't be surprised if your unrelenting attack is nullified.

The "Big Guy" Stagger Exception

Some enemies do not immediately enter Stagger after being hit. In fact, in some cases, it takes several consecutive hits to even faze them. This means that it's difficult to start combo attacks against these characters, often causing you to risk taking damage if you're attempting to even attack them.

This is referred to as the "Big Guy" exception because this is often the case against large normal enemies and boss characters. Regardless of whether or not it's difficult, this doesn't mean combos aren't useful against this enemy type. Staggering these characters so that you can initiate a combo against them is a big part of defeating them swiftly and efficiently.

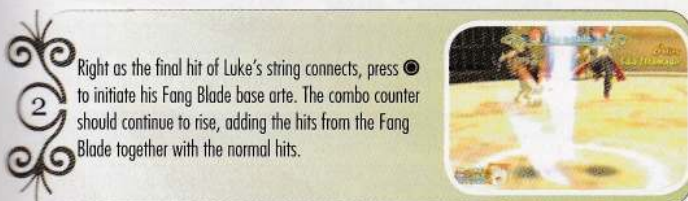

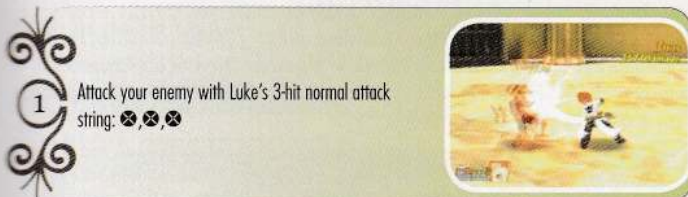

There are a handful of specific moments where an enemy is more vulnerable to being staggered. Hitting an enemy in their back raises your chances of staggering them. The same goes for attacking an enemy when they're recovering from a move. Spells also have a high chance of staggering an enemy, and since they can't be guarded using the same means, they generally become the most used method of opening a boss character up for a combo.

Being able to tell when an enemy becomes staggered is an important aspect of battle. Pay close attention to the way your enemy reacts to a hit at all time. If they're staggered by a hit, take advantage of the opening and always go for a follow up combo!

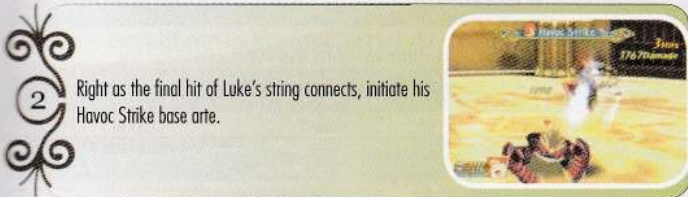

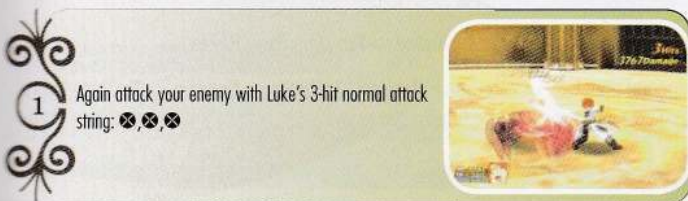

The Cancel

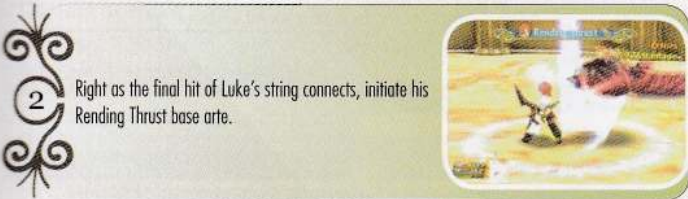

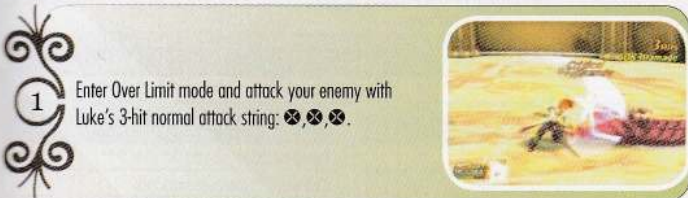

The Cancel is the art of cutting off the recovery animation of an attack and shifting it directly into a different attack. It essentially leaves no gaps in-between the two moves, enabling you to take advantage of Staggering and perform combos in an easier manner. Performing a cancel involves inputting the command for a second attack just as the first hits. The moves that are cancelable vary greatly depending on their status, but more commonly, most combos start with normal attacks being canceled into artes. For example:

Other types of cancels can be performed, however. Specifically, base artes can be canceled into arcane artes. This enables you to commence some rather brutal amalgamations when combined with the ability to cancel normal attacks. For example:

With the basic rules for canceling shown, add a Mystic Arte to the end of your Arcane arte to add even more kick to your arrangement of deadly moves.

3 As the Rending thrust starts to recover, input the command for Luke's Light Spear Cannon arcane arte.

4 Hold ⓧ during the arcane arte to initiate the final blow; Luke's Radiant Howl mystic arte.

FOF Arte Cancel Rules

FOF artes cannot be canceled in any shape or form, even if the FOF arte was originally a base arte. In other words, you can't cancel an FOF base arte into an arcane arte. You can, however, still cancel a base arte into an FOF arcane arte. It's also possible to shift into a mystic arte after a FOF changed arte, regardless of whether or not it's a base or arcane arte.

The Over Limit Exception

Because of the unusual properties behind the Over Limit, it's possible to cancel into it from *any* attack available to you, including base and arcane artes. Although not exactly useful considering the Over Limit burst deals minimal damage, it's still worth noting of you're looking for fancy way to enter Over Limit mode.

Grade

At the end of a battle, Grade Points are earned depending on how well you performed. GP is used at the Keterburg Casino to purchase chips, or as a means to buy upgrades from the Grade Shop after finishing the game (refer to the "Extras" chapter). The following is a chart the shows what actions affect grade point accumulation at the end of battle.

Conditions	Value	Notes

LUKE FON FABRE

As the default playing character, Luke will most likely end up being your most-used member of the group. With no spells or restorative capabilities, Luke's attributes and strengths lean towards all out aggression. His fast and damaging normal attacks combined with his powerful array of physical artes enables him to deal a massive amount of damage with well-placed combos.

F.S. CHAMBER ADVICE

Luke's Raging Blast needs a Grass Chamber upgrade as soon as it can possibly get it, as the Steal ability is always useful to you. His Rending Thrust ability should be equipped with a Cobalt Chamber, which increases the Hit Stun on the technique significantly.

With the upgrade, it's possible to link another set of normal attacks after the Rending Thrust connects (the timing is strict, making it difficult). Because of this, you can repeat the combo $\times\times\times \Rightarrow$ Rending Thrust indefinitely until your TP has expired. It's an infinite combination of hits that can eradicate the majority of the enemies you'll face. Finally, put a Cobalt Chamber into the Guardian skill for good measure. In combination with the defense increase it grants, the Cobalt Chamber removes the ability for Luke to be stunned by attacks, essentially giving him a pseudo Over Limit mode.

ATTACK ADVICE

Luke's unique 5-hit wide swing string ($\clubsuit + \times\times\times$) is the highest hitting normal string available to any of the Tales cast. When low on TP, abuse this string heavily to gain 1 point more of TP than you would usually get from his 3-hit string.

Never cancel your normal attacks into artes unless the initial string hits the enemy. Luke's normal string is safe to counter attack if blocked, but if you cancel into an arte, you'll not only waste TP, but you'll also be open for a beating. Confirm whether the initial hits of Luke's string are hitting before canceling into a special technique.

Her intertwining efforts of keeping your party healthy while granting status upgrades and planting Fields of Fonons across the battlefield makes her one your strongest party members. Her only downfall is her lack of offensive options (which are particularly weak regardless). She still has a handful of attack magic that happens to be rather potent, like Holy Lance and Judgment, but in most cases that should be left to Jade.

F.S. CHAMBER ADVICE

First Aid deserves a Carmine Chamber on it simply because of its inherent usefulness and cheap TP cost (which raises the amount of HP restored from the spell). Force Field, which completely nullifies damage for a short period of time, gains a longer window of effectivity from a Cobalt Chamber. This combination happens to be rather potent against a myriad of boss characters that are usually terribly difficult to deal with (like Sword Dancer for example). For good measure, slap a Grass Chamber on to Resurrection to lessen the massive TP cost of the ability.

ATTACK ADVICE

Tear's "Invoke" series of spells are helpful to the offensive characters in a party, but if you're not specifying which is worth doing to the computer controlled Tear, she'll throw them out at random. Since only specific artes are equipped to your characters, remove any of the Invoke spells that aren't immediately effective with your main party's most used FOF attacks.

JADE CURTISS

Jade is your party's strongest offensive spell caster. His fonic artes are a potent array of dazzling fireworks that blast large areas of the field with elemental magic. The damage output on these spells is massive, and the total amount of enemies they can damage at a time is often large. Place him in the back of your party and let him eradicate the field with his might!

F.S. CHAMBER ADVICE

If you're using Jade as the controlled character, equip a Grass Chamber to his Thunder Lance to add the Steal effect to it. Place a Grass Chamber on his Meteor Storm ability as well; it lowers the massive TP cost some. Also put a Carmine Chamber on his Splash for a basic damage increase to an already effective spell.

ATTACK ADVICE

Keep in mind that Jade doesn't need to be standing on a FOF circle to take advantage of them with spells. Start the casting period for one of your artes then manually cast a matching FOF circle with Tear. Invoke spells have fairly small casting times, so she should finish releasing the circle just in time for Jades spell to blast it and everything around it.

F.S. CHAMBER ADVICE

Equip a Grass Chamber to her Surge Breaker technique to add the Steal ability. Adding a Glass Chamber to her Mighty Charge ability adds a healing element to it. It's also worth attaching a Cobalt Chamber to her Lucky ability, which increases the length of its effect.

ATTACK ADVICE

Dual Punishment happens to be one of the better attacks to use against surrounding groups of enemies. Use it often amidst a group if things get a little hairy for Anise. Despite her strong physical abilities, don't ignore her spells. Bloody Howl and Negative Gate are particularly strong dark spells, and few spells even carry the dark element.

F.S. CHAMBER ADVICE

Equip either Guy's Void Tempest or Final Cross with a Grass Chamber to infuse the Steal ability. A Carmine Chamber works well in combination with his Center arte, giving him an even higher HP boost every time he uses it. Finally, equipping a Sunlight Chamber to Guy's Sword Rain: Alpha gives him a flexible, yet potent FOF attack to utilize.

ATTACK ADVICE

It's all about speed. Guy's Free Run speed after he obtains the "Dash" AD Skill is absolutely absurd. Most enemies have an extremely difficult time trying to track Guy's location because of it. Run circles around your enemy until they whiff an attack, then punish the recovery of their move with a combo!

NATALIA L.K. LANVALDEAR

Similar to Tear, Natalia specializes in support spells. Status boosting artes combined with powerful healing magic make her slightly more defense oriented over Tear's FOF summoning abilities. Natalia's ranged bow attacks aren't half bad when combined with a close range character backing her up.

Statistics

Full Name	Natalia Luzu Kimlasca Lanvaldear
Age	18
Birth Date	37th day (Rem), Rem Decan, ND1999
Gender	Female
Height	168cm
Weight	53kg
Class	Archer
Weapon	Bow & Arrow

F.S. CHAMBER ADVICE

Barrier is one of Natalia's most effective status enhancers, so equip a Cobalt Chamber to it to increase the length of the spell. Attach a Grass Chamber to Cavalry to add a HP restoration effect to it, making a mediocre spell a little more useful. Lastly, it's difficult to utilize, but a Grass Chamber can be a equipped to Natalia's Aerial Laser to add the Steal effect.

ATTACK ADVICE

Cavalry, despite its weaknesses, is important to Natalia's game if you're controlling her. She needs to keep away from her enemy at all times, and Cavalry gives her the means to get away if they manage to get close. She'll take a few hits in the process, but since she can't be stunned with the effect on, she can still run away to freedom.

THE JOURNEY THROUGH THE ABYSS

BATICUL

Conversation List

Conversation Name	How to Start
Another Boring Day	Speak to Ramdas and leave the room.
Sword Training	Occurs automatically after you discuss Van's leave of absence with parents.

Item List

Name
Apple Gel
Lemon Gel
100 Gald

OBJECTIVE CHECKLIST

- Head into the building at the eastern end of the manor courtyard. Speak to Ramdas, a servant who resides in the southern room off the hallway you just entered. Afterward, go north through the same hallway again and enter the northern chamber. Inside you find two rooms. Go inside both and examine the shelves to find a few items.

- Go back to Luke's room to speak with Guy. Afterward, leave and return to the courtyard.

- From the courtyard, move into the western building. Grab the items in Duke and Madam Fabre's Chamber. Then proceed into the southern Drawing Room.

Combat Training

Van decides to give Luke one final day of sword training before he leaves. Essentially, this lesson is a combat mode training session, which helps you safely learn some of the basic functions of the *Tales* combat engine. Although these functions are explained elsewhere in this guide in greater detail, you must complete Combat Training in order to proceed with the game.

With regard to Van's final combination test, a basic starting combo for Luke is

⊗, ⊗, ⊗, ⊗, ⊗ (Fang Blade). You can add two additional hits to this combo by holding + while inputting the normal attacks (⊗, ⊗, ⊗). However, wide swings tend to have less frontal range than Luke's standard normal attack, so they may miss against some enemy types. Keep these attack combinations in mind when combating adversaries in the next area.

TATAROO VALLEY

Conversation List

Conversation Name	How to Start
This Place...	Wait for over 5 minutes in the field of flowers at the beginning of Tataroo Valley.
Tear's Purpose	Occurs automatically after your first enemy encounter.
Going Home	Occurs automatically after second forced enemy encounter.
Stupid Monsters!	Occurs after you fight a monster on the third map of Tataroo Valley.

Item List

Name
Apple Gel
Orange Gel
Cape
300 Gald
Life Bottle
400 Gald

OBJECTIVE CHECKLIST

1 Slowly move through the area and explore every nook and cranny. This is your first taste of combat and the experience points that come along with it, so hunt down every monster you encounter. Keep heading south until you run into someone who's willing to give you a lift to a nearby town.

Choices to be Made

After leaving Tataroo Valley, you can either stay on the carriage or get off and walk to town. When prompted, getting off and walking is the best choice. The enemies that appear along the way to Engeve are easy to defeat, making them effortless targets for farming Experience Points. There are also a few Search Points in the area that are worth mining, so take the time to explore.

In addition, there are a few conversations that you can initiate by meeting various criteria in battle. Some of these can be initiated now, while others may require more time and a bigger party. Keep the following chart in mind as you venture into battle.

Conversation List

Conversation Name	How to Start
Secretly Practicing	Score a 10 hit combo in battle.
Working Together	Score a 30 hit combo in battle.
Efficiently	Initiate 100 enemy encounters.
I Can't Take Any More	Escape from battle 10 times.
Use Your Head	Escape from battle 30 times.

OBJECTIVE CHECKLIST

1 Pay a visit to the town inn to initiate a cutscene.

2 Go north and move into the shopping area to initiate another cutscene.

3 Go back to the Engeve Inn. The shopkeeper is feeling guilty about accusing Luke of stealing the town's food supplies, so he offers a free room at the inn. Accept the offer and stay the night.

Sub Event 2: Spaghetti!

TLP	Engeve/Engeve	+100
-----	---------------	------

Go to the western map of Engeve and enter the westernmost house. Speak to the woman at the stove to find that she's missing an important ingredient for her meal. Leave the house and head to the watermill on the east end of the map. Speak to the older woman in the bottom-right corner of the house to obtain the needed ingredient. Then return to the woman making dinner to obtain the recipe for Spaghetti and a few ingredients!

Sub Event 3: Secret Box

TLP	Engeve/Engeve	+500
-----	---------------	------

A man sitting near the shopping area of east Engeve needs a favor. (He's the guy from whom Luke stole.) Speak to him and agree to listen to his problem. A treasured box that belongs to him was stolen, along with the rest of the food that's recently gone missing. He needs you to get it back for him.

The March to Cheagle Woods

Cheagle Woods is located directly north of Engeve village. It's visible through a giant tree that towers over the surrounding greenery. Before entering, make a stop by the nearby search point, which is directly to the east of Cheagle Woods.

OBJECTIVE CHECKLIST

1

Go north after you enter Cheagle Woods. Examine the odd-looking stone on the left side of the cave to find the Secret Box that the man in Engeve wanted. Return the box to the man to complete Sub Event 3, and receive the Collector's Book.

2

Head to the Cheagles' living quarters to receive the Sorcerer's Ring. Then press the button to make your new friend breathe fire.

3

Before leaving the Cheagle Tree, speak to the Cheagle elder to take a rest and regenerate your HP and TP. Also, be sure to walk up the tree branch at the bottom-right corner of the tree trunk. It leads to a box containing 200 Gald.

4

You need the Sorcerer's Ring to get to the S Flag. Move into the area and use Mieu Fire to burn the shrubbery blocking your path.

5

Just as hinted, you cross the river blocking your path to the Liger den by burning the base of the tree on the other side. The tree falls over, enabling you to use it as a bridge.

6

Use the Sorcerer's Ring to burn down the vines holding the item box suspended in the air. Inside is another Life Bottle, which is always useful to your group.

Wood Golem

Many of the Wood Golem's attacks send you flying. Whenever you're launched, press to use the Recover skill, which causes your character to spring back to their feet and land safely. Also, be cautious when tackling this walking collection of bark aggressively. He isn't stunned by physical attacks unless he's struck while recovering from a move. To compensate for this, wait for him to swing the first blow, and defend against it using the guard button. After you manage to defend his attack, strike him with the biggest combo you have!

The Liger Queen isn't stunned by physical attacks unless she's recovering from a move. Since the majority of her attacks tend to have a heavy wind-up period, run toward her until she starts to do an attack, and then guard or perform a Backstep (AD Skill, + Left Analog Stick away from enemy) to avoid it. When you recover from either defensive maneuver, attack the Liger Queen with your most damaging combo.

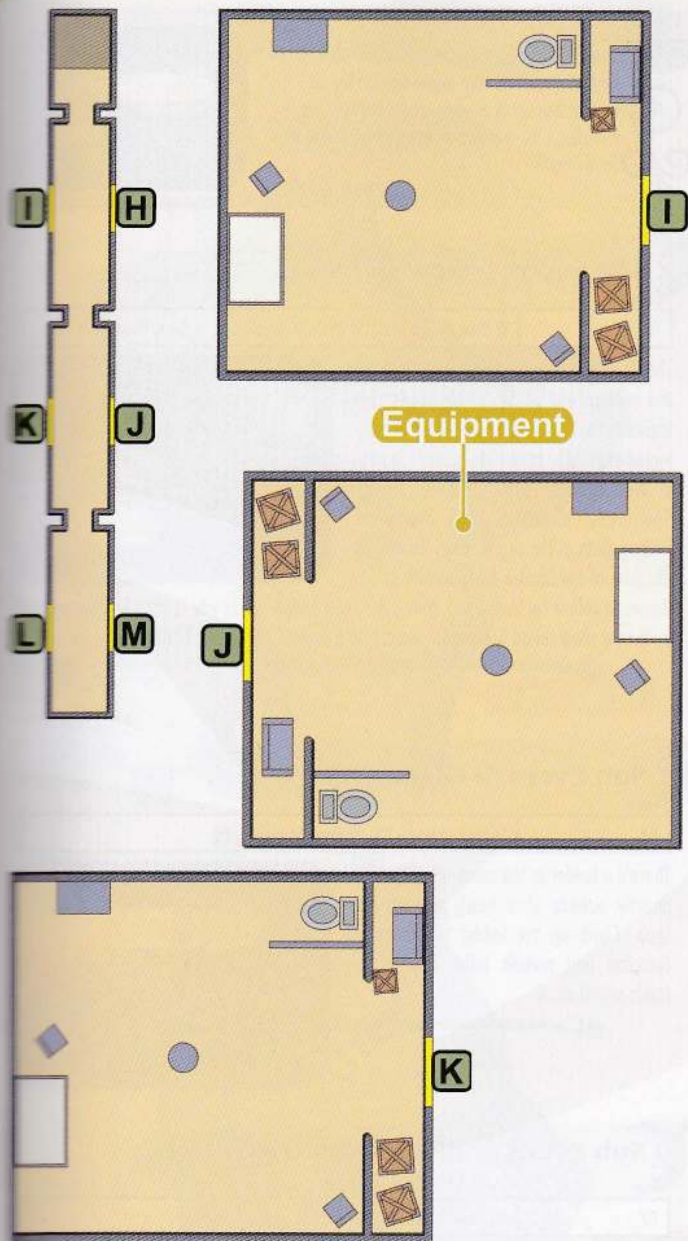

Speaking of damaging combos, the Liger Queen is vulnerable to the sleep status effect. Tear's Nightmare Arte causes this effect, enabling you to send the ravenous beast to dreamland, if you're looking for a safe way to approach it. You can also manually initiate Nightmare just before you commence a combo with Luke, timing it so it connects just after you finish Luke's combo. Regardless of whether or not the sleep status effect occurs, you should be able to link another combo with Luke just as you recover from your last attack, for a substantial amount of damage.

After a specific amount of the Liger Queen's HP is depleted, Jade gives you a helping hand. Your objective is to keep the Liger Queen away from Jade for as long as possible, which should give him enough time to cast his devastating Fonic Artes.

1 Jade offers you the privilege of exploring specific areas in the Tartarus. This enables you to obtain an Apple Gel while learning a little more about the ship's impressive crew. Before doing so, speak to Anise, who gladly joins your group in an effort to make you feel comfortable. When you're finished exploring, return to the room containing a save point, and speak to the crew member in the back of the room.

2 The Tartarus receives an attack from a large group of enemy forces. Move your party to the top of the ship, taking the ladder that goes upward offscreen to find a detour to the bridge.

3 After escaping from imprisonment, search the nearby rooms for items. When you come to a room full of boxes containing items, move near them and press the X button to grab one of them. While holding X, use the left analog stick to move the box and get the item it's hiding.

- Enter the northern mansion to initiate a cutscene and obtain a World Map.
- The first house at the eastern end of St. Binah has a notebook on the floor. Examine it to gain the recipe for the Sandwich.

- Stay at the inn to initiate a short cutscene. Once it's finished, stay at the inn a second time to start yet another short cutscene between Luke and Guy. Just as it finishes, Luke learns a new Arte technique called the Sonic Thrust!

Sub Event 4: New Gel Shop

TLP	St. Binah/Engeve + 300, St. Binah/St. Binah + 500, St. Binah/Chesedonia + 500
-----	---

The Medicine Shop at the very back of the eastern end of St. Binah needs two ingredients: Cotton and Gel Base. These ingredients are found at search points in Western and Eastern Rugnica Plains. Specifically, there's a small chance of finding them at the search point directly to the east of the broken bridge south of St. Binah. In return for these two items, the shop keeper gives you a Miracle Gel and opens up a new shop called Sostenuto containing a myriad of healing bottles.

Sub Event 5: Giant Tree

TLP	St. Binah/Engeve + 200, St. Binah/St. Binah + 300
-----	---

There's a ladder in the north end of town, directly outside of a newly opened gel shop. Climb up the ladder to initiate a cutscene that reveals tidbits about the tree's significance.

Sub Event 6: Black Dream Fan Club (Part 1 of 3)

TLP	St. Binah/St. Binah + 300
-----	---------------------------

There's a small billboard on the side of the road just as you enter the eastern end of St. Binah. Use Mieu to shoot a fireball at the billboard and start a short cutscene. In order for you to make amends for burning the sign, a man named Ayn gives you 200 Gold and asks you to pay his dues at the Black Dream Fan Club in Chesedonia. Then he wants you to bring back a newsletter for him to read.

Several ghost-like enemies are carrying colored orbs around the mansion. You need the blue and red orbs to pass through the gate to the north of the save point.

2

Go up the east staircase and head south. Follow the path until you see a monster carrying the red orb. You can't catch him because he runs offscreen. However, grab the two statues at the top-left corner of this map and move them so that they block the monster's path of escape. Then go through the western door and reenter the room to make the monster carrying the red orb reappear. With the statues in the way, defeat the monster to obtain the red orb.

3

The monster carrying the blue orb is in the eastern room that connects to the hallway with the monster carrying the red orb. March up the stairs a bit to find the monster floating around the castle. He runs away when you get close to him, so use Mieu's fire attack to stun him. Move in and attack him to obtain the blue orb.

Arietta has a wide variety of devastating Artes at her disposal, so make it a point to target her when the battle begins. Go to the strategy menu and set all of your party members to Arte Users, to ensure they support your attack plan. Be cautious of the attack radius on some of her spells, many of which can be avoided only by retreating from her. If her two pets attempt to back up her casting efforts, cautiously use the guard button and slip in a few strikes when they're recovering from moves.

Once she's taken care of, focus your attacks on the Liger. He inflicts massive amounts of physical damage, so be cautious and use Free Run to evade his attacks. Use big combinations supported by backup Artes to keep him stunned so he doesn't counterattack.

The final enemy, the Hresvelgr, is the easiest of the bunch. Target it immediately, and assault it with big combos to bring it down with ease. Be cautious, and remember to defend against counterattacks.

Sub Event 7: Sword Dancer 1

Conversation List

Conversation Name	How to Start
Was That...	Occurs after Sword Dancer's defeat.

Just after your battle with Arietta, you're given a choice: travel back to Kaitzur Naval Port on foot, or go back by carriage. Choose to go back by foot, and proceed to the first floor of Choral Castle. A sword is planted in the middle of the floor, near the first save point in the dungeon. Examine it and select Yes to battle an optional boss character.

Sword Dancer is a powerful monster with myriad huge slicing attacks. At your current level, he can easily decimate the majority of your party in 2 attacks. That being the case, Tear's Force Field technique plays an important role in this fight. It takes several physical hits to stun Sword Dancer, so melee characters like Luke and Guy need Force Field to attack him without taking damage.

Command Tear to immediately start casting Force Field. Just as it's about to be initiated, move in with Luke and initiate a combo (⊗, ⊗, ⊗ ⇄ Fang Blade as always). It takes several hits, but Sword Dancer usually starts being stunned by your attack just as the last few hits of the Fang Blade connect. Initiate Stalagmite with Jade just before you start your combo with Luke, timing it so that the spell begins just as the Fang Blade stops hitting. If you do this correctly, you should be able to continue the combo with Luke after you recover from the Fang Blade. Repeat the sequence to take advantage of Sword Dancer being stunned. If needed, command Guy to aid your attack with Void Tempest and the like. That way you can continue the combo for as long as possible. If the combo ends, immediately back away from Sword Dancer, and start casting Force Field again to prepare for your next attack.

2 Climb up the stairs at the end of the corridor. When you enter the next room, check behind the northern corner to find an Orange Gel. Then head up the left staircase to find Jade and an item box with an Iron Bracelet inside.

3 Work your way up to the deck of the ship. Talk to the many party members standing outside, and then move around to the back of the deck to continue to the next area.

OBJECTIVE CHECKLIST

1 Make a stop at Din's Shop at the northernmost part of town. He gives you a rundown on trading, which will come in handy later when you need to procure useful items.

2 Move south into the shopping area. This triggers a cutscene that introduces the Dark Wing gang.

After the Dark Wing cutscene, go offscreen into the southern shopping district. The area to your immediate left leads to Astor's mansion, but *don't* go there yet. Doing so would initiate a string of events that would cut off a variety of Sub Events. Be sure to complete the preceding conversations and the following list of Sub Events before visiting Astor's mansion. Once you've completed them, pay Astor a visit to receive the information on the Fonic Disk that Guy obtained. Before you leave, be sure to check the drawer in the northern room in Astor's mansion. It contains the Time Traveling Hero doll, which greatly resembles *Tales of Phantasia's* Cless Alvein.

2

After leaving the shop, enter the third room at the end of the hallway. Look behind the table in the middle of the room to find 1800 Gold.

3

When you reach the deck of the ship, you find that a strange robot has stolen an important Fon Stone. To get it back, chase the robot until the ship starts to shake (an exclamation point appears over your head). Stop moving, or an enemy unit will attack you from above. If this happens, mash the X button to regain your footing and avoid the enemy. Continue chasing the robot until you catch the robot and speak with it. The Kaiser Dist R is weak against water-based Artes, so abuse Jade's Splash technique. Tear's Invoke Aqua FOF is also useful when combined with Luke's Raging Blast, which creates the powerful water-based Frigid Blast technique. Other characters have a variety of water-based Artes that can take advantage of Tear's Aqua FOF as well.

Aside from that, rely on the Free Run ability to avoid the Kaiser's attacks. When he misses one, rush in for the kill and unleash your biggest combination. If you manage to stun him long enough with party-based combos, cast Invoke Aqua to end the combo with a water-based technique and seal the deal.

OBJECTIVE CHECKLIST

1 Explore the first floor of town, which contains several shops. There's a coliseum here, but you can't enter any contests yet.

2 Head to the top floor of Baticul and go to the Audience Room. When the discussion finally ends, go south and make an immediate right into the nearby hallway. Go to the end of the hallway, and speak to the maid to reveal a morsel of information about Tear's love for cute things.

3 Go to Duke Fabre's mansion. Pay close attention to the following Sub Events when you're in this area, because they need to be done at specific times. Move into the Drawing Room to find Luke's fiancé Natalia waiting for you. When you're finished bantering with her, go back into the room to your right to view a scene that revolves around Tear.

4 Visit Susanne, who's in her bedroom at the northwest corner of the mansion. She expresses her fears about Luke's absence, but still finds ease in his return. When the dialogue finishes, head to Luke's room and rest.

5 Go to the audience room once again. After receiving Luke's new Title, head south and make a left at the bottom of the stairs to find the castle's prison. After the reunion with Van, continue moving down several floors of Baticul to reunite with the rest of your party. When you're ready to leave, go to the cargo holder at the southeast end of the first floor of Baticul. Note: There's an event that unlocks the "FS Chamber" menu.

Sub Event 12: Guy's New Technique (Part 1 of 5)

Speak to the gardener Pere three times while he's tending to the mansion's flowers. He speaks of a man named Gee in the Zao Desert, who may be able to teach Guy a new sword technique.

Sub Event 13: Albert Style Tech (Part 1 of 4)

After speaking with Susanne, go back to Ramda's room. Speak to him and the maids conversing with him to learn some troublesome news. The maids have accidentally sold important books containing Albert-Style sword techniques to a merchant. After receiving 20000 Gald to buy the books back, go to the Harbor area of Baticul to catch the merchant before he leaves. He's already sold 3 of the 4 books, but you can still buy the last one back for 20000.

Sub Event 14: Guy's Blade (Part 1 of 3)

After receiving the Ambassador Title and Guy rejoins your group, head back to Duke Fabre's mansion and speak to Pere, who's admiring a sword in the mansion entrance.

Sub Event 15: Jade's Past (Part 1 of 4)

Head to the northern end of Baticul's harbor. A mysterious boy reveals himself and attempts to kill Jade. In the process, tidbits of Jade's dark past are revealed.

Sub Event 16: Fried Rice

After your party regroups, sleep at the town inn. A cutscene initiates, giving you the recipe for Fried Rice.

Sub Event 17: Sigmund Style Strategist

When you have over 300 enemy encounters, select Guy as the onscreen character and speak to Miyagi at the Baticul dojo. Guy receives a new Title: Sigmund Style Strategist. You must read all the tutorials to trigger this.

Life Bottle

OBJECTIVE CHECKLIST

1 Directly in front of the cart that brought you to the factory is a ladder. Climb down the ladder and walk to the end of the air conditioning shaft. It breaks and falls down. An item box at the end of the shaft falls with it, which you can obtain by climbing down the ladder directly in front of the exit. The item is behind some metal at the northeast corner of the bottom floor.

2 When you come to the inactive elevator, examine the machine next to it to turn it on. Use the elevator afterward to move to the next floor.

3 The machine that can't be read needs a light near it. Use Mieu's fire on the canister of oil next to it to create a makeshift lamp. After activating the machine, take the elevator south, and then walk along the shaft until it breaks. Take the shaft down to the exit below.

4 To illuminate the room, light the oil dripping from the roof into the canister below. Then head back to the exit next to the first drum of oil.

5 When you come to the second cart, activate it using the nearby machine and take it across the room. When it stops, you should see a machine to the north. Go to it and turn the wheel to the left. Then take the cart back across, and go southeast to find a ladder. Take the ladder down to find another drum with oil dripping into it. Light it, and then return to the cart and take it across the room yet again. Finally, go back to the oil machine and turn the wheel back to its original position. When you're finished, head over to the machine to the south and turn it on to activate the elevator. Take the elevator to the top of the room and enter the next area.

The puzzle in the final room may seem complicated, but the idea behind it is simple. As always, you need to light the area so you can activate the machine that runs the nearby cart. To do so, walk along the edge of the top floor to lower a ladder. Take the ladder down, and then push the empty oil drum south until you see an opening along the gate that lines the cliff. Push the can into that opening, and then walk south along the ducts below until you come to another oil drum. Light the drum on fire, and then take the ladder north. Walk along the oil pipe until it breaks, spilling oil directly into the drum canister you moved earlier. When you're finished, head back to the oil canister and light one of the dripping oil drops on fire. Now go back to the machine at the top of the room and activate it to start the cart. Be sure to use the nearby save point before getting on the cart. A boss battle awaits at the other end.

Nothing fancy here. Just use Free Run constantly to avoid the majority of Abaddon's attacks. When you see one of his attacks miss, run in and hit him with a combo. He's large and easy to hit, so use Luke's 5 hit string (☙ + ☙, ☙, ☙), and then cancel it into his Sonic Thrust, which can then be canceled into his Fang Blade Rage or Fang Blade Havoc. Use other characters in your party to add hits to your combination, and keep it going for as long as possible. Because it's so easy to land party-based combinations against the hulking Abaddon, it's entirely feasible to end this fight with three or four big combos.

EAST ABERRIAN PLAINS

Conversation List

Conversation Name	How to Start
Asch Revealed	Occurs after you leave Abandoned Factory.
Ion's Safety	Enter and finish a battle.

Conversation Name	How to Start
The Worst in the World?	Cook a recipe with Luke.
Showers Are Awesome – Guy Talk	Wander around in the Zoo Desert for over 2 minutes.

OBJECTIVE CHECKLIST

- Follow the nearby road, which leads directly to the Zoo Desert. From there, you have a choice: Either go to the Oasis nearby, or go around it and make a stop in Chesedonia for shopping. Either way, eventually you'll have to head back to the Desert Oasis to find clues to the whereabouts of the Zoo Ruins.

Sub Event 18: Curious Princess

If you've found at least 6 search points, pay Din a visit in Chesedonia. Make up to 5 items in his shop, and Natalia receives the Curious Princess Title.

Early Super Weaponry

There's a search point extremely close to the entrance to the Zoo Ruins. This search point happens to carry the majority of the items needed to obtain a small list of powerful weapons in Din's Shop (Iron Sand, Scorpion Needle, Copper Ore, Chesedonia Cactus, Naevimetal). It's possible to empty the search point of items and then enter and exit the Zoo Ruins to cause the search point to reappear. This enables you to gain as many of the items as you need in a relatively short period of time. When you've gathered a large amount of them, travel to Chesedonia and give Din the aforementioned trade items. Be sure to give him plenty of Gold as well, in order to improve your chances of receiving great items. If you're lucky, you may receive a handful of overpowered items.

The following is a list of some of the weapons that you might obtain. Keep in mind that many of these weapons can make the vast majority of the upcoming battles extremely easy, so it's up to you whether to choose weapons that offer a more balanced battle, or those that overwhelm the opposition with ease.

OBJECTIVE CHECKLIST

- Look around town and speak to its inhabitants to receive information on the Zoo ruins. There's also a tree that contains an Apple Gel, but you can't reach it without Mieu's attack (which you'll be receiving within the Zoo Ruins).

Sub Event 19: Guy's New Technique (Part 2 of 5)

Enter the house at the northern end of the village. Speak to the old man in the back to receive the Hod Citizen Registry, which plays a vital role in enabling Guy to learn a new Arte.

OBJECTIVE CHECKLIST

Walk down the spiraling ledge. When you reach the bottom, grab the Apple Gel and continue through the south door. The path that goes west leads to a dead end at the moment, so go south instead.

When you come to a shining yellow crystal on the ground, Mieu gains the ability to attack objects on the field map. This technique enables you to break and clear rubble that may be obstructing your path. Hold the R2 button while pressing + or - on the directional pad to switch between Mieu's fire and attack abilities.

Once you obtain Mieu's attack, backtrack to the fork in the road and take the west path you skipped earlier. Follow it until you come to a collection of rocks blocking the road. Do a little snooping around on the east side of this area to find an item box containing 2500 Gald. Then smash the rubble in the road with Mieu's attack to continue.

From here on out, the path is mostly linear. Several piles of rubble block your way, but none of them can withstand Mieu's new attack.

Sync's Fonic Artes are extremely powerful, so make it a point to eliminate him as soon as possible. Set all party members to target Arte users so that you'll receive plenty of support. If Largo ever interferes with your attack, lure Sync away from him by getting his attention and using the Free Run ability.

Once he's out of the picture, it becomes a lot easier to tear down Largo. Use the Free Run ability to quickly run near him and lure out an attack, and then quickly run away to avoid it. When he's recovering from his thoughtless move, dash in and assault him with the biggest combo possible.

Return to the Oasis

Once you're finished with the Zao Ruins, you may be interested in making another stop at the Desert Oasis. A new conversation is available for viewing, which you initiate by drinking from the fountain. You can also grab that Apple Gel you missed before by attacking the tree on the east side of town with Mieu's attack. Whether these two things are worth the excursion back, however, is up to you.

OBJECTIVE CHECKLIST

1

Go to the nearby inn and take a rest to spawn a conversation. When it's finished, save your game and leave town.

2

Travel northeast out of town. Eventually you come to a road that leads to a mountain pass. Proceed inside and enter Deo Pass.

Sub Event 21: Guy's New Technique (3 of 5)

If you're up for the walk, take a trip back to Kaitzur. Move into the northern section of town (Malkuth side) and speak to the man just south of the inn. He shows Guy a thing or two with the sword, allowing him to learn a new technique called Tempest!

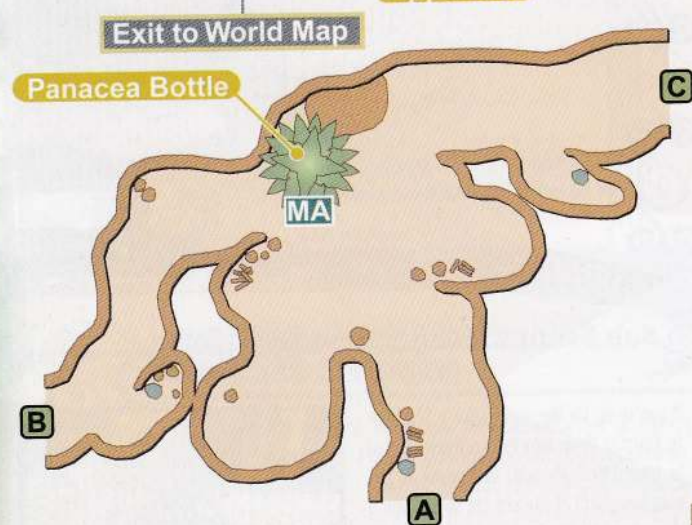

Sub Event 22: Black Dream Fan Club (3 of 3)

Although it's hardly worth the trip back, return to St. Binah and speak to Ayn to finish off the Black Dream Sub Event. You don't really need to do it now, though. Just keep it in mind and go back later when it's easier to get to St. Binah.

There are several trees in this area. Hit them with Mieu's attack to cause items to drop from their limbs. Be sure to do this to *all* of the trees in the area. Watch out! Some turn into enemies and attack you in kind!

2

You can shatter the large boulders in the area with Mieu's attack. The majority of the boulders tend to block your paths to new areas, so destroy all of them to explore the whole map.

3

When you come to the tree near a cliff, hit it with Mieu's attack. An item box flies into an abandoned home below. Enter the home by taking the southern path below it until you come to a ladder. Climb the ladder and open the box inside the home to receive the Steel Bow.

Free Run is the most important element in this fight. If Legretta manages to hit you with any of her gun attacks, she inflicts absolutely absurd amounts of damage. You can avoid most of these attacks by constantly circling around her.

Pay close attention to the cross that appears on the ground. It's the starting phase of a Fonic Arte that attacks within that area. Its starting animation is slow, so as long as you react quickly enough, it's easily to avoid.

Lastly, Legretta's Searing Sorrow attack can completely eliminate a character. The starting animation of this attack is easy to spot; a giant ball of fire appears over her head just before she launches it at one of your party members. Carefully use Free Run to avoid the attack, and then nail her with a combination.

Tear leaves your group at the entrance to this dungeon. To compensate for the loss of a healer, move Natalia into your party.

2

The splitting roads may seem confusing, but they tend to lead to immediate dead ends holding items. Follow the road and take every alternate route to procure every item within the dungeon.

Controlling the Tartarus

After the collapse of Akzeriuth, you regain the control of the Tartarus yet again. The \times button moves the ship forward, while \square moves you in reverse. Use the left analog stick or L1 and R1 to turn the ship left and right. Pressing the Start button toggles through the world map and radar. When you're finally ready to leave the ship, press the \odot button near a city with a port.

Duel

Luke finally clashes with Asch, his twin and apparent superior. What follows is a battle sequence that you can control. There's no way to really win or lose this fight; defeating Asch nets a small amount of EXP and Gald, but nothing else. Losing to him continues the story as normal. Either way, nothing changes the outcome of the events to follow.

Deck Brush
Character Disc (Cannot be gained until Luke rejoins party)
Scild Forte (Cannot be gained until Luke rejoins party)

OBJECTIVE CHECKLIST

1

Check the closet on the left side of the room to find the Deck Brush. Then head downstairs and talk to Tear.

2

After speaking to Tear, grab the recipe on the dining room table. Then head outside. Go to the western part of this area and speak to the man to complete another Sub Event.

3

When that's finished, go through the glowing corridor to the north. Go up the stairs and enter the room on the second floor. Speak to the mayor in the back of the room, and pick the second choice to leave Yulia City.

Sub Event 22: Ramen

Tear's room contains a dining table. On the far edge of the table is a notebook. Examine the notebook to obtain the recipe for Ramen, the Japanese noodle dish.

Sub Event 23: Yulia City Allocation (1 of 3)

TLP	Yulia City/Doath + 200, Yulia City/Engeve + 200
-----	---

Speak to the man at the west corner of town, just outside Tear's room. He's in a panic and needs 3 Apple Gels from you. Give them to him to receive a TLP boost for Yulia City.

Traveling to Port Belkend

From your current position, travel directly east. You come to a desert island sporting extremely high cliffs. Go south around the island, and then turn north and travel along its eastern edge. Quickly make a right and start hugging the west coast of the green island next to you. Continue moving north until you come to Port Belkend.

Item List

Name
Orange Gel
Dark Seal
Warrior Maiden
6000 Gold (Cannot be obtained until you have Luke in party again)
Poison Charm (Cannot be obtained until you have Luke in party again)

OBJECTIVE CHECKLIST

- Just as you enter town, examine the strange pedestal to the northwest of your location. A mechanical arm grabs a nearby crate and breaks it open, revealing an item box. Open it to find an Orange Gel ripe for the picking.

- Move south along the town's streets until you come to a fork in the road. Take the west path. When you enter the new area, notice the batch of movable boxes at the top of the screen. Despite what it looks like, those items cannot be procured just yet, so skip past them and go west. Enter the Fon Machine Laboratory and proceed north.

- When you enter the laboratory's medical center, check the shelves behind Doctor Shu to find the Warrior Maiden. Move into the next room over and check the drawers to find a Dark Seal. Leave the medical center and follow the path until you find Spinoza.

- After speaking with Spinoza, leave the laboratory. Guy announces that he's leaving the party to go back and pick up Luke, who's still incapacitated in Yulia City. When the cutscene finishes, make preparations to leave town and raid yet another dungeon.

Sub Event 24: Soba Noodles

Move south along the streets of Belkend until you come to a road split. Take the south stairs and follow them until you come to another staircase. Directly to the right of the staircase is an alley that moves under a platform. Go into that alley to find a man stuck in a hole. Pull him out of the pit to receive the recipe for Soba Noodles.

Sub Event 25: Natalia's New Technique

Before heading to the next dungeon, make a stop at Sheridan Port, which is just north of Port Belkend (on the coast of the desert island). Walk west as you enter the port to find a band of ruffians pushing around an old man. After Natalia saves the old man, a new skill becomes available called the Gallant Barrage. You end up in Port Daath afterwards, so board your ship again and prepare for another trip.

The focus of this fight is divided between the Ancylopolyp and the mini-polyps that appear on the field. Asch and two other members of your party should largely focus on Ancylopolyp. Set one of your other character's strategy to Different Enemy to ensure someone is attacking the polyps at all times.

As with most boss characters, Free Run is extremely important here. Pay close attention to the direction he fires his bubble attack, and cautiously move around them. Continue running circles around him until you see him make an attack, and then run in and attack him as he's recovering. After taking enough damage, the Ancylopolyp hunches over and enters his shell. He cannot be damaged once he's inside, so back away from the beast and focus on the nearby polyps. Use any of the additional time you have to heal or cast status increasing abilities (such as Asch's Steel). When he reveals his ugly mug again, move in and continue the assault.

OBJECTIVE CHECKLIST

- 1 Leave the garden and move into Tear's room. Go downstairs and enter the northern room. Tear should start going over a new item called the Character Disc (refer to Sub Event 25). Once she's finished speaking, check the box on the left side of the room to receive the Scild Forte.

- 2 Leave Tear's quarters and proceed to the west. Enter the northern portal to enter the room with two staircases. Take one of the staircases up to the second floor and enter the room in the middle.

- 3 After speaking with Teodoro, initiate the Sub Events in the area, and then proceed to Tear's room again. Go to the second floor to receive the Principles of Fonology book. When you're ready to leave, exit Tear's residence and proceed to the second floor of Yulia City. Enter the portal on the east side of the floor and select the bottom option.

Sub Event 25: Character Disc

Enter the northern room in Tear's quarters. You receive the Character Disc, which is a data folder that enables you to examine the polygon models of every character you've encountered thus far.

Sub Event 26: Yulia City Allocation (2 of 3)

TLP Yulia City/Death + 300, Yulia City/Engeve + 300

Remember the man you gave 3 Apple Gels to before? Speak to him again to receive yet another donation request. Give him 5 bags of rice to finish the event.

Sub Event 27: Tear's Hymns (1 of 2)

Enter the room that leads to Teodoro's office. Layla speaks to Tear about another Fonic hymn. Afterward, go to the second floor of the same room and enter the portal in the middle. Speak to Layla, who's sitting in the desk at the very back of the room.. You'll receive the Holy Song for your efforts.

OBJECTIVE CHECKLIST

1

Pay close attention to the Sub Event section, and handle those in the first area you enter. When finished, proceed north to the next area.

2

Anise is waiting for you at the steps to the Daath cathedral. After picking her up, go north into the cathedral. Make an immediate right, entering the first corridor you come to. Follow the hallway until a cutscene between Mohs and Legretta begins.

3

Return to the cathedral's main hall. Speak to the woman on the west side of the room, who ends up being Anise's mother. When you're finished, walk up the stairs in the center of the room and proceed into the room where Tritheim resides.

4

Speak to Tritheim to receive a permit to enter Oracle Headquarters. Before leaving, talk to Anise's father, who's standing around in the east side of this room.

5

Go south into the cathedral's main hallway, and then go east into the same hallway where you encountered Legretta and Mohs. Go to the end of the hallway to enter the next dungeon.

Sub Event 28: Hyperresonance Training (1 of 4)

Stay at the inn in Daath to initiate a cutscene. Tear begins the first steps of a training regimen that will teach Luke to use Hyperresonance on command.

OBJECTIVE CHECKLIST

1 Many of the rooms in this area are locked, initially. To open them, a nearby gong has to be struck using Mieu's attack. This signals a guard. Start moving west after you enter the compound. When you come to a room with a giant gong next to it, use Mieu's attack to ring it. A guard reveals himself, unlocking the door to the room so that you may enter.

2 Go north after clearing out the room. Move up the western staircase and follow the path until you reach another gong. Ring it, and then proceed downstairs to deal with the guard. Enter the room and clean it out.

3 Exit the room and proceed south down the staircase in front of it. Follow the elevated ledge around the edge of the room, ignoring and passing the staircase going to the bottom floor. When you see stairs going to the third floor, take them.

4 Take the elevator to the second floor. Defeat the guard who spots your position and attacks you. Once he's knocked out, take the elevator down to the third floor again and hit the gong. A guard leaves the room above you and spots his fallen colleague, allowing you to take the elevator up to his position and slay him. Enter the unguarded room and search through the several additional rooms inside before moving on.

5 Take the elevator down to the third floor yet again. Then head west. Follow the path and take the stairs down to the next area.

In the next area, go east and deal with the guard defending the nearby room. When you're done searching the room, go west and place yourself directly next to the cage that's blocking your path to the nearby guard. Shoot Mieu's fire through the gate and hit the guard, which freezes him momentarily. While he's motionless, take the nearby staircase down and loop around to his location to defeat him. Once he's incapacitated, hit the nearby gong to summon a guard out of the west room. Slay him and continue inside.

The final hallway of the dungeon contains several rooms, many of which hold items. The last room on the left side of the hallway is where Natalia and Ion are being held, but *don't* enter that room yet. First, go through the center doors in the back of the hallway to find the Noble Thief Disc and a Carmine Chamber. When you're ready to leave Oracle HQ, return to the room with Natalia and Ion inside.

Sub Event 32: Guy's New Technique (4 of 5)

Once you're finished with Oracle HQ, walk down the stairs in front of the cathedral and immediately turn into the east garden containing a monument. Speak to the old man to hear a hint pertaining to the location of another Arte master.

Returning to Daath Bay

Leave Daath and make your way to Daath Bay. Upon entering the port, save your game, and then speak to the man at the back of town to board the Tartarus.

Conversation List

Conversation Name	How to Start
Asch, Friend or...?	Occurs after you leave Hill of the Forth Stela.
The Tartarus Takes a Beating	Occurs after you enter Daath Bay.
Cruising in Style	Board the Tartarus and drive for a short period of time.

KETERBURG BAY

OBJECTIVE CHECKLIST

1

The only things to do here are a few Sub Events, which are explained in the following section. After those are finished, leave town and go west toward Keterburg.

Sub Event 33: Salad

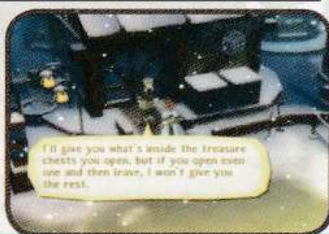

Make your way over to the house on the west side of town. On the stool in front of the dining room table is a notebook. Open it to discover the recipe for Salad.

Sub Event 34: Warehouse Clean Up

TLP Keterburg/Keterburg + 400

Speak to the depressed man standing in front of the warehouse on the east side of town. He begins to complain about the mess he has to organize inside the warehouse. He attempts to goad you into cleaning up the mess for him. Agree to his plea and start a box-pushing minigame.

Puzzle Solution

Item B:	Grab the Pineapple Gel.
Box 6:	Push it left 3 spaces. Push it down 3 spaces.
Item C:	Grab the Rebirth Doll.

KETERBURG

Conversation List

Conversation Name	How to Start
The Emperor's Love	Occurs sometime after you enter Keterburg.
An Unexpected Pitfall	Occurs after you enter the Casino.
The Perfect Man	Occurs after you stand near the statue in northern Keterburg.
Looking for Love	Occurs after you sleep at the Hotel.
Dist? A Genius?!	Occurs after you speak with a man wandering near the Item Box containing the Hourglass. Linger afterward momentarily.
Children Caught Up in Politics	After seeing the event in front of Peony's manor.
Errors and Excuses	Occurs after you stay the night in Keterburg after Nephry speaks to Luke.
The World Isn't That Easy	Occurs after you linger in the Casino with 100000 chips.

Item List

Name
Empty Girl Doll
Alca Forte
Hourglass

OBJECTIVE CHECKLIST

1

Make a stop in the Casino for a cutscene and a few conversations. You can play a few games of poker while you're there, if you're feeling lucky, but it's not really worth the effort at the moment.

2

Leave the Casino and go up the stairs directly to the east of the casino. When you enter the next locale, go directly north to move into the northernmost area.

3

A group of children are having a snowball fight. Walk up to the right snowball machine and use Mieu's attack on it. Proceed down the southwest path afterward into a new area. Grab the Hourglass in the small waiting area after entering.

4

Move into the western section of Keterburg by heading west from the same area you obtained the Hourglass. Enter Nephry's mansion, and check the cabinet in the northwest corner of the room to receive Aka Forte. Move into the northern room to speak to Nephry.

5

Go to the Keterburg hotel and then return to Nephry with Luke. When the discussion finishes, leave town and head back to Keterburg Bay. Hop on the newly repaired Tartarus and head out to sea.

Sub Event 35: Casino

TLP	Keterburg/Engeve + 300, Keterburg/Chesedonia + 300
-----	--

Simply enter the Keterburg Casino. Anise throws a fit over not being old enough to gamble. After the cutscene is over, she receives the Grown-Up Child Title.

Nephry Ball Instructions

Choose 5 numbers from 0 to 30. Afterwards, 5 balls are drawn from a pile randomly. The number of chips you win varies, depending on how many of the numbers you selected are drawn. You get a special bonus if the bonus ball is drawn. However, if none of your numbers are drawn, all of your chips are lost.

Nephry Ball Payout Data

Correct Numbers	Chips Bet
5	x 1000
4	x 300
3	x 50
2	x 5
1	x 2
0	x 0

Poker Instructions

The poker game in the Casino isn't anything like real poker; you aren't really playing against anyone. You're simply trying to get the best poker-style hands possible. Place your chip bet, and then select which cards you don't want to hold with the \otimes button. Press the \oplus button to exchange the cards you don't want with new ones. You receive a chip reward based on the kind of hand you have.

After you win a hand, you're asked if you want to double up. Selecting Yes prompts a basic guessing game. Based on the card on the table, anticipate whether or not the next card they lay down will be higher or lower than that card. If you guess correctly, your winnings are doubled. If not, you lose everything you just earned.

Poker Hands and Payout

Hand	Chips Bet
Five of a Kind	x 100
Royal Flush	x 50
Straight Flush	x 20

Sub Event 36: Labyrinth Mansion

TLP	Speak to the man.	Keterburg/Sheridan + 200, Keterburg/Keterburg + 200
	Give 200000 to that man.	Keterburg/Sheridan + 200, Keterburg/Keterburg + 200
	Talk to the man a third time.	Keterburg/Sheridan + 200, Keterburg/Keterburg + 200

Go up the east stairs directly next to the Keterburg Casino. When you reach the next screen, go right until you see a man standing outside of a mansion. Speak to him to get the lowdown on his new project. Afterward, leave Keterburg and then reenter. Speak to the man again to find that he's low on funds for the project and needs 200000 Gald to keep it going. Give him the money and then leave town again. Reenter town one last time and speak to the man again. A woman should be standing outside the mansion. Speak to her to enter a special labyrinth mini-game!

Labyrinth Game Rules

The labyrinth contains 5 floors with a different maze on each. Each maze is infested with traps and enemies. Clear the individual floors by finding the ladder to the next. There's a time limit on each floor. If the time limit or your life bar expires, the game is over. You'll need Mieu's fire, attack, and wing abilities to completely clear this game, so don't bother playing without them.

Things to Look Out For

Monsters: Running into them lowers your life bar and score slightly. Use Mieu's fire or a Mieu attack to dispose of them. Defeating a specific number of enemies regenerates your health.

Spikes: Squares with small holes on them are spike traps. Running over them triggers them and depletes your life bar slightly. Hold the \oplus button and walk over a trap to pass through it safely.

Box: Use the \otimes button to push the boxes/crates you find in the maze. More often than not, you'll be pushing them into holes.

Dark Box: Darker-colored boxes cannot be pushed. Instead, use Mieu's attack to destroy them.

Colored Squares: These can be tricky. Some squares spring you upward over certain walls in the maze. Others are hidden pits, which automatically cause you to lose the game. Keep in mind that the spring-based squares aren't needed until floor 4, so avoid them altogether until then.

Circular Switch: These switches open nearby doors. Use Mieu's wing to fly into the air, and then release the \oplus button to quickly drop and press the switch.

Award Chart

Award	Condition
Toast Recipe	Obtained after you clear all 5 floors for the 1st time.
10000 Gald	Obtained after you clear all 5 floors for the 2nd time.
Natalia's "Labyrinth Princess" Title	Obtained after you clear all 5 floors with Natalia.
Rebirth Doll	Obtained when game is completely cleared.

Sub Event 37: Easygoing Waitress

TLP

Keterburg/Keterburg: +200

Go to the second floor of the Keterburg Hotel. Move into the room to your right, which is a restaurant. Speak to the chef at the entrance to begin a mini-game featuring Tear!

Waiting Game Rules

Customers flood into the restaurant. Chat bubbles appear over their heads announcing the dishes they want to eat. Afterward, a menu appears listing the dishes available, with key inputs next to each label. Select the recipes the customers ordered using the keys listed. After the order is given, deliver the food to the customer by walking over to them and pressing the button. A menu appears, asking you to select the dish the customer ordered. If you select the correct dish, you get a good answer. If not, the customer is angry, and you lose some of your overall pay. Get every order correct to receive the maximum amount of Gold at the end. If you manage to stick it out for the entire workday, you receive the Easygoing Waitress Title. Playing this game later, when you have Tear's maid costume, causes a co-worker to challenge her to a duel. If you manage to finish up, you receive the Fruit Cocktail recipe.

Sub Event 38: Chat Player

This Sub Event is only available after your second play through the game. Move into the northern section of Keterburg, where the children are having a snowball fight. Enter the northeast igloo to find the Ant Lion Man inside. He offers you the chance to view any and all of the conversation sequences in the game.

PART 3

Mystic Artes

At this point in the game, the majority of your characters should be level 30 or higher. At level 30 the Special AD Skill is gained, which enables your characters to perform Mystic Artes. These attacks are damaging special moves that act as an extension of High Fonic Artes. To use them, enter Over Limit mode and initiate a High Fonic Arte. While the Arte finishes, hold the  button to unleash the Mystic Arte. Keep in mind that some Mystic Artes require TP, while others are only available during your second play through the game. Refer to the individual character sections for more information.

SUB EVENT MAYHEM

There are several Sub Events that you can tackle at the moment. They're completely optional, but they're worth doing to grab a few of the interesting items they offer. Although the two warehouse events require that you go off-course to do them, the battle with Sword Dancer is actually on the way to Theor Forest. If you aren't interested, or you're simply looking to fight Sword Dancer, head to Rotelro Bridge instead. You find it just to the east of Tataroo Valley, clinging to the edge of both the west and east continent.

Sub Event 39: Port Belkend Warehouse

Travel to Belkend. Speak to the man in blue in front of the northwest warehouse. He's lazy, so he asks you to clean up the warehouse for him. Agree, which starts another box-pushing puzzle.

Puzzle Solution

Box 1:	Push it right 1 space.
Box 2:	Push it up 3 spaces. Push it right 2 spaces.

Sub Event 41: Obsession (2 of 3)

Sword Dancer is found at search point 19, which is actually on the way to Theor Forest. Travel north after leaving the ship at Rotelro Bridge. Keep an eye on your east flank until you see the blue rings from the search point, which is just off the road.

You can tackle this beast the same way you did before, but that plan is a little risky at this point in the game. A better idea is to use Luke or Guy to repeatedly run toward Sword Dancer, bait an attack, and then quickly run away to avoid it. While this is happening, casters such as Tear and Jade blast him with spells from afar. If any of the spells that connect manage to stun the monster (it generally takes several hits), run toward it with Luke and pummel him with a combo. Combinations ending with Mystic Artes, if you have them, inflict massive damage to the blade-wielding poltergeist.

OBJECTIVE CHECKLIST

1 The guards in this area are looking for intruders to capture. Walking within a guard's line of sight causes him to arrest you (essentially warping you back to the beginning of the area). However, after you're arrested enough times, a new selection emerges: the ability to simply combat any of the soldiers that try to arrest you. This makes the overall experience much easier to deal with if you're having trouble sneaking around.

2 You need a distraction to safely move past the guards in this area. Mieu happens to be very good at creating distractions; specifically, use Mieu's attack to hit a nearby tree and grab a guard's attention. The guard runs over to the source of the noise, but eventually turns around and returns to his post. With his back turned away from you, run past him to get where you need to go.

3 The east path at the beginning of this fiasco leads to a myriad of items, all of which are helpful. Unfortunately, many of them can be a pain to get to and require a lot of sneaking around. However, if you have a little patience, you don't need to get these items now. Complete the dungeon, go to Grand Chokmah, and then come back afterward. All of the guards stop being hostile, enabling you to search the forest without the worry of being attacked.

4 To leave the dungeon as soon as possible, distract the left guard and make your way up the west hill. Go west to the next screen over. Use Mieu's fire to scare the guard dog when its back is turned. Strangely, it should run into a nearby wall and disappear. Walk over to the wall the dog runs to and examine it to find a secret cave. After climbing to the top of the plateau, go right and grab the item box a screen over. Then use the cave to go to the bottom area again and head north. Hide behind the nearby rock, strike the tree with Mieu to distract the two guards near you, and then run past them to the far east. Start heading north, but keep an eye out for a nearby guard dog. When you see it, nail it with Mieu's fire to scare it away. Then continue north until you end up in Grand Chokmah.

5 There's a secluded area of the world map that can only be reached through Theor forest. When you first enter the forest, go as far to the east as possible, and then keep traveling north until you reach the world map. Go northeast around the edge of the map to find a search point. Examine it to receive the All-Purpose Knife.

OBJECTIVE CHECKLIST

1 Go west and leave the area. When you reach the next screen, enter the first door you come to, the bar. Climb up the stairs to the second floor. Then talk to Jade at the end of the bar.

2 Move to the bottom floor of the bar and speak to the bartender to get the recipe for Curry. Then leave the bar and head south to the dock. Speak to Natalia to have her rejoin your group.

3 Continually move west until you find Frings. He brings you to the audience room to speak to Peony.

4 Leave the audience room and start heading east along the second floor until you find the resting room. Check the drawer in the middle of the room twice to receive the Paralysis Charm.

5 Leave the palace and move to the town inn. Speak to the guard outside. Guy rejoins your group and obtains a new Title. Afterward, the game asks you if you want to automatically travel to St. Binah. Selecting the first choice warps you directly to town, but this eliminates the possibility of doing many of the Sub Events in this area. Select the second choice to stay and deal with the mentioned Sub Events now.

After Jade rejoins your group, speak to the bartender on the first floor. The bartender is good friends with Jade and offers him the recipe for the bar's specialty dish, Curry.

Sub Event 43: Deciphering Ancient Texts (1 of 5)

Go to Malkuth's Military Headquarters, which is located at the far west end of Grand Chokmah. Find Sesemann in the Briefing Room. He gives you an Ancient Scroll, which may be the key to hidden abilities.

Sub Event 44: Grand Chokmah Warehouse

TLP	Grand Chokmah/Chesedonia + 400
-----	--------------------------------

Go back to the first floor of the Chokmah bar after Guy rejoins your group. Speak to the man standing in front of the door at the back of the bar to receive yet another warehouse-cleaning job.

Puzzle Solution

-----	---

After you complete all of the warehouse-cleaning Sub Events, you gain a massive amount of TLP and a new Title for Anise!

Sub Event 46: Guy's New Technique (5 of 5)

Return to the Chokmah bar. Go upstairs and speak to the old man dressed in white. Then leave town and travel all the way to Belkend (refer to the following section about other things to do while you're there). Speak to the man just to the south of the machine that's powering the town to get another technique. Finally, travel to Keterburg. Head to the section of town that's furthest north. Enter the west igloo and speak to the man inside to finally learn the Soaring Light Spear!

AN EXCURSION TO BELKEND

Item List

Name
6000 Gold
Poison Ward

OBJECTIVE CHECKLIST

- After leaving Grand Chokmah, take a trip to Belkend. From here you can take care of another segment of Guy's New Technique Sub Event, while also grabbing a few items you couldn't get with Asch before.

- Move to the southeast section of town, just in front of the area where you pulled that man out of a hole. If you pay close attention to the area south of you, you see a train circling a small courtyard behind a gate. Just at the edge of the gate is a small brown switch. Hit the switch with Mieu's attack to change the direction the train is traveling, causing it to run into a nearby item box. Grab the item box afterward to receive 6000 Gold.

- Now head over to the area just outside of the research lab. You should see an alleyway to the north that's full of boxes. Use Mieu's attack to destroy the boxes until you find an item box containing a Poison Ward.

Additional Skits

They don't need to be done in any real order, but there are several additional skits that may pop up as you continue your travels. Many of them happen inherently as you grow stronger, so you may not need to initiate them.

Conversation Name	How to Start
Ion, the Big Gun	Remain on the world map after defeating Kaiser Dist RX.
Guy's Little Hobby	Linger in any area that's not the world map after defeating Kaiser Dist RX.

OBJECTIVE CHECKLIST

Enter town and head north to the mansion to speak to Glenn McGovern. After you leave, a short cutscene is followed by a boss fight.

KAISER DIST RX

Enemy Statistics

Boss	Kaiser Dist RX
Level	29
HP	40000
TP	100
EXP	7500
Gold	8000
ATK	492
DEF	512
Fonic ATK	222
Fonic DEF	390
Elemental Weakness	Water 1.3
Elemental Resistance	None
Item	Magic Mist (100%)

Kaiser Dist tends to focus on the leader of your group almost inherently, so use Free Run to lure his attention away from the remainder of your party. If he takes a swing at you and misses, run in and land a combo on him. He's weak against water-based attacks, so Jade's Splash technique and FOF Artes that revolve around Tear's Invoke Aqua are especially damaging here. Specifically, Luke's Guardian Frost attack (a water-based extension of his Guardian Field technique) deals massive damage to the robotic monster.

Where to Go

Once Kaiser Dist RX is defeated, travel to Rotelro Bridge and board the Tartarus. Go to Port Sheridan, leaving town just as you get there to head east. Eventually you come to Sheridan, which is on a cliff pointing out to sea.

OBJECTIVE CHECKLIST

- Go north until you see a golden switch on the right side of the path. Hit the switch with Mieu's attack to lower the top half of the staircase. Walk up the stairs and take a nap at the inn to see another Hyper Resonance Training sequence.

- After resting, enter the right hotel room and check the cage at the foot of the bed for an item. Then enter the left hotel room and check the cabinet in the northwest corner of the room for another item.

- Leave the inn and head down the left staircase again. Immediately travel north to head to the next screen up. There's a seesaw to the right of the entrance. Hit it 5 times with Mieu's attack to cause the nearby item box to fly offscreen. When you're ready to get the item, loop around to the northeast side of the town and check the west side of the screen just as you enter.

- While you're on the northwest side of town, speak to the three old scientists at the top of the area. Then go south and enter the Meeting Hall. You receive an item called the Launcher and permission to find a crashed aircraft. Leave town and go west until you reach the Meggiora Highlands.

Sub Event 47: Blacksmith (1 of 3)

TLP	Sheridan/Sheridan + 100
-----	-------------------------

Go northwest just as you move into town, and enter the shop to your left. Enter the west room to find a blacksmith working away at some heated steel. Speak to him and he offers to make you an item. He wants Iron Sand (found at search points 6 and 16), Gold Dust (rare drop from Pans in Zao Ruins), and Stone (rare drop from Earth Spirits in Zao Ruins) to make the item. Once the process has been started, he offers you a choice between three items. Select one to begin the process. You have to help him keep the furnace going, so press the **X** and **○** buttons at a specific rhythm to gain the item you want. Pay close attention to Luke's reaction as you're pressing the buttons to see if you're doing it correctly.

Sub Event 48: Hyper Resonance Training (2 of 4)

Stay at the town inn. A new training sequence occurs between Luke and Tear. More information is revealed about Tear's past relationship with Legretta.

Sub Event 49: Udon Noodles

Enter the bar in the northeast corner of town. Examine the notebook on the table to receive the recipe for Udon.

Sub Event 50: Music Box (2 of 7)

TLP	Sheridan/Sheridan + 100, Sheridan/Chesedonia + 100
-----	--

Enter the Music Box House, which is located in the northeast section of Sheridan. Speak to the woman named Ishtar inside. She expresses her love for her father's giant music box and the need to hear it play music once again. You can play some of the discs you've obtained on the music box, like Prelude. Select the song you want to hear, and then select whether you want it to play automatically. If you select manual operation, rotate the left analog stick in a circle to play the song at whatever speed you wish.

Sub Event 51: Music Box (3 of 7)

-----	--

It's a long trip, but return to Grand Chokmah. Go to the Shopping Center, but don't take the front entrance. There's a hidden door on the east side of the building. Enter it and grab the item box inside to gain the Purity disc.

MEGGIORA HIGHLANDS

OBJECTIVE CHECKLIST

Conversation List

Conversation Name	How to Start
Hurry to Ginji!	A while after the party splits up.
Meggiora Highlands/ Blade Rex	Entire party is KO'ed in battle with Blade Rex.
Worried About Luke...	A while after defeating Blade Rex with Tear in a different party.

Wasier Rapier
Weak Bottle
Mystic Cloak
Battle Suit
6800 Gold

1

As you enter the highlands, your group decides to split into two. Take two characters with strong fire-based abilities, like Jade and Tear. The other group should be as well-rounded as possible, including a character who's strong at melee-style combat and a healer. After you've selected your group, Luke's team starts moving first. A timer appears. If time runs out, Ginji dies and three later events end up being different due to his death. It's highly recommended that you make the effort to save Ginji.

2

Although it's seemingly maze-like, the path to the falling aircraft is simple. Keep moving northwest with either party to reach your goal. Don't waste time trying to get every item in the area; you can always come back here later after you've saved Ginji. Once you reach your goal with Luke's party, a boss fight begins. Defeat the boss to move along with the second party.

As with most enemies, use Free Run to avoid the Blade Rex's attacks. When you see an opening, use fire-based Artes to take advantage of his spell weakness, like Jade's Flame Burst or FOF changed special attacks using Tear's Invoke Flame. He's a big one, so landing massive combos against him isn't very difficult. Keep in mind that the timer for this dungeon continues to drop while you're fighting this beast, so don't play it safe. Rush in and take down the monster as soon as possible.

OBJECTIVE CHECKLIST

- 1 As you enter, immediately walk north to initiate a cutscene. Continue going north after it finishes, and head to Teodoro's office again. When that cutscene finishes, go south to the Tartarus to ship out again. Be sure to handle the following two Sub Events before you leave, if you're interested.

Sub Event 52: Yulia City Allocation (3 of 3)

TLP Yulia City/Doath + 400, Yulia City/Sheridan + 500

Remember the guy who asked for donations of items and food? Well, he needs help again, this time in the form of weapons. Give him 5 Maces to help him continue his line of work. You wouldn't want the poor guy to get fired... would you?

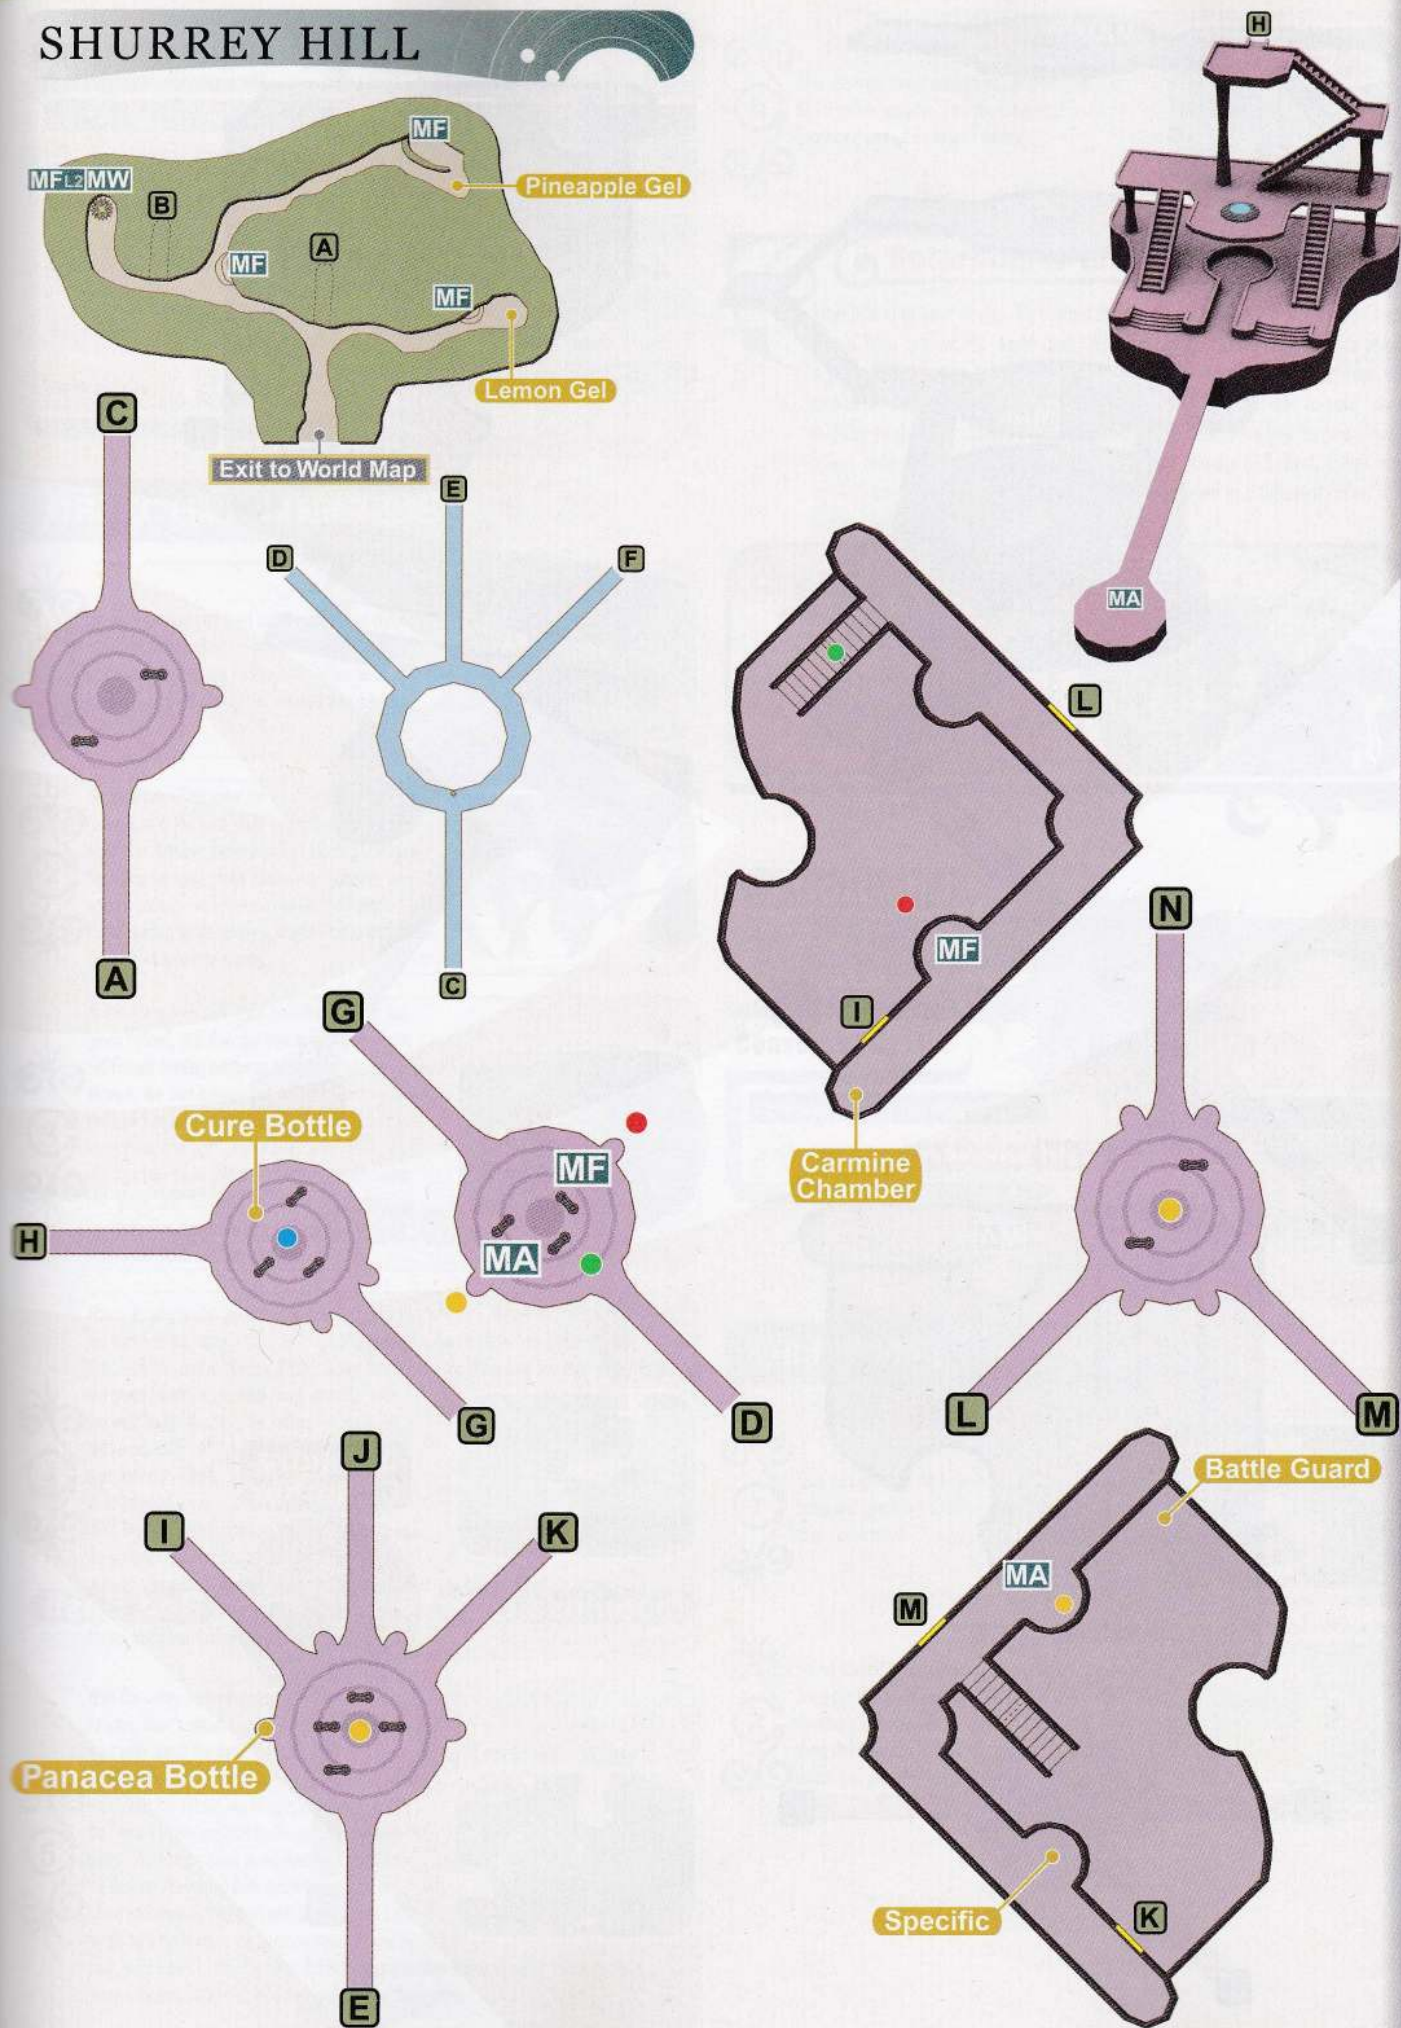

Sub Event 53: Luke's New Technique (2 of 4)

A blond-haired man is standing outside Tear's room. Speak to him, and he reveals that he owns one of the ancient Arte texts Luke's family lost earlier in the game. When it's possible to return to Baticul later, speak to Luke's mother to gain 40,000 Gald. When you're able to go back into Yulia city, speak to the blond-haired man again to gain a new sword technique!

After returning to the center area, go south until you find a yellow pedestal. After the cutscene, leave the compound and return to your airship.

OBJECTIVE CHECKLIST

On both the east and west paths you find red crystals. Stand on nearby elevated ground and shoot Mieu's fire at them to cause them to disappear. When all of the crystals are eliminated, go to the door that appears.

Go north when you enter the ruins until you come to a 3-way fork in the road, each time with a purple seal in front of it. Remove these seals by collecting Fonons in the following areas of the dungeon and placing them in specific patterns on light-based locks. The Fonons can be found floating by themselves, trapped in a crystal, or on the body of a nearby enemy.

At the 3-way road split, take the left path. Grab the green Fonons, and then use Mieu's fire to obtain the red Fonons floating northeast of the platform you're on. Move to the next area up and defeat the enemy carrying the blue Fonons. Proceed forward until you come to a vertical beam of light. Examine the base of the beam and input the three colors you obtained in this order: red, green, and then blue. When the new path opens up, proceed across the bridge and use Mieu's attack to smash the diamond-shaped stone.

After returning to the 3-way fork in the road, take the right path. Defeat the enemy carrying the blue Fonons. When you come to another fork, take the east path and obtain the red Fonons in the next room over. Return to the previous room and head up the north path. Obtain the green Fonons in the next room, and then take the west bridge to obtain the yellow Fonons in the next area. Return to the previous room and take the east path now. Climb the rightmost stairs to find two pedestals and a beam of light shining through the floor. Move the east pillar into the beam of light, and then place the west pillar within the reflecting light and just above the blue circle several floors down. When the new light pattern appears, go downstairs and input these colors: red, yellow, blue, and then green. Follow the new path like before, and then destroy the diamond-shaped stone.

With the center path now open, proceed inside. Grab the yellow Fonon that's encased in stone by using Mieu's attack against it. Obtain the blue Fonons that's in the room as well. Take the west path out of the three that lie before you. Obtain the green and red Fonons in the area. Backtrack to the previous room and take the middle path. Grab the second red Fonons in the area, and then return to the previous room and take the east bridge. Procure the items in the area, and then enter the door on the second floor and follow the road. When you come to the room with the extended light beam, turn the bottom ring once counterclockwise by using Mieu's attack, and then turn the highest ring counterclockwise twice. When the light pattern appears, input red, blue, red, yellow, and then green.

Returning to the Surface

After boarding your airship, fly toward the barely noticeable black spot that's just above Yulia City on the world map. When you get close enough, you're asked if you want to return to the outer crust. Do so to witness a battle between the armies of Kimlasca and Malkuth. Afterward, your party decides to split forces in order to deal the current war more effectively. From here you have a choice: follow Jade & Anise to Engeve, or go with Guy & Natalia to Kaitzur. Either way, both of the following events happen. They just happen in a different order, with minor event changes.

OBJECTIVE CHECKLIST

Travel south while in town to initiate a few scenes. Afterward, go into the Chesedonia bar and speak to the man guarding the nearby door. After another scene with the ridiculous Dark Wing Gang, you're asked to pay for your entrance to the other side of Chesedonia. Refuse the offer to bypass the blockade anyway.

Make a quick stop at Astor's mansion. Then attempt to leave town through the southern exit of Chesedonia. After being stopped, return to Astor to receive permission to leave town again. Exit Chesedonia and make your way to the Desert Oasis.

For once, Free Run is practically useless. Not only do the majority of this beast's attacks cover the area around it, but its turning speed makes it easy for him to track your position. Instead, rely on the guard button to deal with his attacks, and then counterattack with a combo when he's open. Continue the combo for as long as possible by using your party's Artes between Luke's attack strings. Spells in general are helpful against Tyrannopion because of his massive defense against physical attacks, but overall, it's not necessary to take a defensive stance. Attack the beast head-on.

CHESEDONIA

Conversation List

Conversation Name	How to Start
Thinking About Asch	Reunite with Noelle at Chesedonia.

OBJECTIVE CHECKLIST

If you're looking for Chesedonia's shop keepers, they've all relocated to the southern inn. Go out of the north exit to find the Albiore waiting for you.

Sub Event 55: Tear's Pendant (2 of 2)

Speak to the merchant standing near the northern inn. He mentions a man in Grand Chokmah taking possession of Tear's gemmed pendant. Go there and enter the Shopping Center. Speak to the man on the right. Pay him 100,000 Gald to get the pendant back.

Sub Event 56: Jozette & Aslan (1 of 5)

The following Sub Event is a fetch quest. The payout is a love story between General Cecille and General Frings. To start it, enter Engeve for a short cutscene. Immediately go to the inn. When you're finished, fly to Kaitzur, entering the town from the south entrance. Enter the building to your immediate left for another scene.

Return to Engeve and enter Rose's home. Go back to Kaitzur, this time entering the north entrance. Speak to Frings, and then head to Kaitzur Port. Cecille is waiting in the Kimlasca Base. Speak to her to receive her sword. Now return to Engeve once again and give Frings the weapon. When he asks you to deliver a return letter, return to the Kimlasca Base in Kaitzur Port to pick up Cecille. When you're ready to fly, go to Chesedonia and enter Astor's mansion. After yet another cutscene, you receive the Memento Ring. Make a run back to Kaitzur yet again, going through the north entrance to speak to Frings nearby. Finally, travel to the Kimlasca Base in Kaitzur Port to speak to Cecille one last time.

Sub Event 57: Choral Castle Portrait

Travel to Aramis Springs. A dog should be prancing around outside of the entrance. The owner of the mutt is trapped in vines just above the cave's entrance. Head inside and immediately take the left path to get to him. Use Mieu's fire to free him from his captivity and receive the King's Portrait.

Sub Event 58: Music Box (4 of 7)

With the King's Portrait in hand, go to the Choral Castle, which is now in the Qliphoth. Climb the east staircase just as you enter and follow it outside. Loop around and go northeast until you find two thrones. After Luke places the picture next to the queen's portrait, a secret door opens to a new music disc labeled Requiem.

We Can't Stay Here	Go to the Baticul Entrance after escaping.

OBJECTIVE CHECKLIST

Speak to Natalia while you're on the boat. After your escape from the holding room, walk down the nearby stairs and make a left. Enter the audience room to the north. Go south and follow the elevators downward to exit the city.

After leaving the city, travel southwest. Eventually, you come to a brown bridge slanted upward.

INISTA MARSH

OBJECTIVE CHECKLIST

1

A giant monster called the Behemoth spawns at specific points in this dungeon. In your current state, it's completely possible to defeat this monster, although the battle is difficult. However, nothing is gained by defeating it at this point. Instead, run away from the beast whenever it catches up to you. Use Holy Bottles if you need a better away to avoid him on the overhead map.

2

The Behemoth starts to drop a rare item called the Golden Helm if you defeat him after initially leaving the Inista Marsh. The Golden Helm is not only a decent item, but it's also necessary for a Sub Event later in the game. It's worth the effort to beat him now, although you may opt to do so later if the fight is too tough for you. Again, the item is only dropped if you complete the Inista Marsh and return to fight the Behemoth later.

3

Once you've cleared the marsh, go northwest and then west until you find Belkend.

Fighting the Behemoth is similar to battling Sword Dancer. Your best bet is to keep your distance and use Free Run to evade the majority of his attacks. Use Luke or Guy to keep him distracted from the spell casters such as Jade or Tear. After one of their spells hits, watch carefully to see if he's been stunned. If he is, run in and launch a combination attack with Luke to score a little extra damage. If you ever have a full Over Limit bar, expel it immediately and look for the opportunity to land a combination linking directly into a Mystic Arte.

Research Funding	After you ask Henken for help, exit the Fonc Device Laboratory and wander around the same map for a while.
I Won't Lose to Asch!	After the decision to find Spinoza is made.

OBJECTIVE CHECKLIST

- Go to the Fon Machine Laboratory. Humorously, a few soldiers drag you into Van's office, thinking Luke is Asch. After a grueling conversation with the Commandant, go to the town inn and speak with Asch. The Albore is back with its pilot, although its flight capabilities have been sealed. He gives you the Genesis of the World book, which Jade opts to read overnight. When you awake in the morning, walk into the next room and speak to Jade. When you have a moment, stay at the inn again to initiate Sub Event 60 (Guy and Van).

- Return to the Fon Machine Laboratory, going through two northern hallways, east once, and then north again. After speaking with Henken and Cathy, go to the Governor's mansion (south of the inn). After speaking with Viridian, you can be sent to Daath immediately or go there on foot. Select the second choice to go on foot.

Sub Event 60: Guy and Van

After speaking to Jade about the Genesis of the World book, sleep at the inn. Guy leaves your hotel room, asking you to stay behind. When you're asked if you want to follow him, do so.

Sub Event 61: Egg Bowl

Enter the room that's north of the location where you spoke to Cathy and Henken. There's a green book at the left end of the shelf. Examine it to obtain the Egg Bowl recipe.

The Search for Spinoza

If you're feeling like another side quest, ignore Daath for now and head out to Keterburg. After watching the scene with Urushi, go to Peony's mansion in the northwest corner of town. It's open now, so head inside and check the drawer to the right to get the Empty Girl doll. When finished, leave Keterburg and go to Grand Chokmah. Be sure to dock at the port. Once you receive the Dark Wings Badge, enter the Chokmah palace and proceed inside Peony's chamber. Check the drawer to your left to get a Stre Maggiore. Keep checking the same drawer to receive an Orange Gel. When you're finished, make your way out to Daath.

OBJECTIVE CHECKLIST

1

Even though you were here before, all of the old spots where item boxes were located now have new items in them. Be sure to check all of them before leaving.

2

You can reach a new section of Tataroo Valley now. Go to the northern end of the map and travel east. You find that a patch of stones and logs have fallen into the northern end of the river here.

3

After entering the new area in Tataroo Valley, follow the path while carefully watching the east edge of the mountain. When you see a suspicious-looking boulder blocking a cave, break it with Mieu's attack. Enter and move to the east end of the area to find Mieu's wings. With that in hand, use it to hit the buttons on the ceiling that are near the east and west doors of the room. This opens the doors. After retrieving the items you find, proceed outside and start heading east again. Follow the path until you run into Uniceros.

Go into your party's Arte menu and shut down any and all wind- or light-based Artes. Allow Tear to only use one offensive spell: Nightmare. Anise's Negative Gate is extremely potent in this matchup as well. The Uniceros' most commonly used normal attack is a flying light blast from the air. Since this attack completely clears you if you're standing directly in front of him, there's little to stop you from directly assaulting the beast head-on. The only time you really need to move is when you see a spell beginning to hit your location. Use Free Run to retreat, and then move in again as the monster is recovering.

OBJECTIVE CHECKLIST (TATAROO VALLEY CONTINUED)

1

Proceed forward and enter the blue door. Then go north until you reach a monument that looks like a tuning fork. Hit the button on the front of the fork with Mieu's attack. As you may have noticed, the aura the fork releases activates the nearby lamp. Hitting the fork again deactivates the lamp.

2

Go north through the door you opened. Take the east path when you see a fork in the road. When you come to a room with three tuning forks inside it, hit them with Mieu's attack in this order: middle fork, left fork, right fork, middle fork.

3

Take the east bridge. Follow the path until you come to another tuning fork with a wind tunnel blowing over it. Hit the tuning fork to shut down the air current, and then head west.

Attack the left fork once, and then attack the right fork. Climb up to the top floor and hit the right fork, followed by the left fork. Drop down to the middle floor again, and hit the middle fork to activate all of the switches.

5

Go back to the previous room you were in and reactivate the wind current. The two currents should now collide with each other, diverting them into a different direction. Walk to the ledge where the wind is pointing to begin a short dialogue between Tear and Luke. While standing in the wind current, use Mei's wings to carry yourself over to the Aqua Cape. After you retrieve it, return to the yellow pedestal at the beginning of the dungeon.

Sub Event 63: Cake

After leaving the Sephiroth in Tataroo Valley, go to the flower garden where you first met Tear (far west end of the map). A sequence shows off Tear's ability to cook sweets. By the end of it, you receive the recipe for Cake.

Let's Meet with the King	Enter Baticul.
How Will the King Respond?	Speak to Ingobert in his private quarters.
An Audience with the King	Exit the Castle after speaking with Ingobert.

Conversation Name	How to Start
Natalia, I'm So Happy for You	Convince Ingobert at the castle.
Let's See Emperor Peony	Exit the castle after speaking with Ingobert.

OBJECTIVE CHECKLIST

1

Travel to the main castle on the top floor of Baticul. Take the first door to your left just as you enter, and then climb the first stairs you see. Go west after you reach the second floor to enter King Ingobert's room. Then take the elevators down to the inn on the first floor of Baticul. After a lengthy scene showing Natalia's reconnection to her father, you gain her Child of Lavaldear Title.

2

While you're here, you may opt to pay a visit to Luke's mother. Not only is she the catalyst for Sub Event 67, but speaking to her now also starts another segment of Luke's New Technique Sub Event.

Sub Event 65: Proud Maid

After leaving the Baticul audience room, leave through the south doors and immediately enter the east corridor. Walk up the staircase in the middle of the hallway, heading east to enter Natalia's chamber. Speak to the maid inside to begin a sequence of events that lead toward obtaining Tear's Proud Maid Title. This Title changes Tear's costume to the maid costume she had during this Sub Event.

Sub Event 66: Easygoing Waitress (2 of 2)

It's a long trip back, but if you want the Fruit Cocktail recipe, return to the Keterburg hotel. Initiate the Waitress mini-game with Tear's maid costume on. If you manage to win the challenge with the rival waitress, you obtain the Fruit Cocktail recipe!

Sub Event 67: Big Sister

If you never obtained the Big Sister Title from the Hyper Resonance Training Sub Events, proceed into Duke Fabre's mansion. Make Tear the onscreen character and change her Title to Van's Sister. Go speak to Luke's mother to start a strange cutscene involving Tear's relationship with Luke. You obtain the Big Sister Title.

Sub Event 68: Natalia's Goals

While outside of the Baticul Inn, walk east past the elevator on the right-hand side of the walkway. A cutscene reveals Natalia's inner thoughts about her duties.

Sub Event 69: The Coliseum

The Baticul Coliseum is now open for business. Here you can enter a high-stakes tournament with any of your six party members. Team-based battles or single-player bouts can be challenged. For detailed information about the battle arena, check Chapter 5, "Important Sub Events."

Conversation List

Conversation Name	How to Start
Dist's True Identity?	Speak to Peony.
Too Thin?	After speaking to Peony, stay at the inn.

OBJECTIVE CHECKLIST

- Head directly to the audience room inside the main palace. After speaking with the emperor, travel to Daath.

OBJECTIVE CHECKLIST

- Walk up to the Cathedral. After the cutscene finishes, move south out of the cathedral and make an immediate right turn just as you pass through the double doors. When you bypass the guard, move north into Oracle H.Q.

- Go back to the room where you found Ion and Natalia detained. After initiating the conversation there, leave the room and head through the northern double doors. Follow the path that winds down to find Reiner. After obtaining the Flightstone, proceed up the stairs again and prepare to leave.

- Remember the items you couldn't get to before? Well, Meiu's wings enable you to reach them now. They're on the very top floor of Oracle HQ, just above the ladders that you can't reach normally. Two items are in the southwest corner, and the other two are on the east end.

Sub Event 71: Nebilim (1 of 6)

Conversation List

Conversation Name	How to Start
A Painful Fonic Arte	A while after it occurs.

With the Nebilim sword you gained from Blade Rex, speak to Trithiem. He asks you to make a stop in Keterberg, so do that. Travel to the Governor's mansion and speak to Nephry. Head to Grand Chokmah and speak to Emperor Peony, who's standing around in his bedroom. After a little begging, you receive the Lost Celesti sword. Finally, make your way over to the Malkuth Military Base on the west end of town. Enter Jade's office to finish up this segment of the quest.

CHESEDONIA

Conversation List

Conversation Name	How to Start
Peace at Last...?	After requesting Astor's presence in the conference.

OBJECTIVE CHECKLIST

- 1 Walk over to Astor's mansion and speak to him. Leave town and hop on the Albiore. Return to Yulia City.

Sub Event 72: Ant Lion Man...? (4 of 5)

Take a peek into the same alleyway where you usually find the Ant Lion Man. He's there yet again, asking for Beef, Chicken, and a Striped Ribbon. Unfortunately, Striped Ribbons are only sold in Chesedonia's Spiritoso, and you must have a rather large amount of TLP to get them. Regardless, if you have enough to buy a Striped Ribbon, buy it and give it to the horned freak. In return, he gives you a Holy Ring and a Spirit Ring.

YULIA CITY

Conversation List

Guy's Revenge	After the conclusion of the Peace Treaty.
Meiu's a Genius?!	After the conclusion of the Peace Treaty, rest in Tear's room.

OBJECTIVE CHECKLIST

- 1 Once the Peace Treaty signing has been completed, stay the night in Tear's room and go to Teodoro's office. After speaking with him, leave Yulia City and start flying to Sheridan (or take care of the following Sub Events beforehand).

Sub Event 73: Jozette & Aslan (2 of 5)

Make your way to Kaitzur Port. Cecile is still inside the Kimlasca Base. Speak to her about the upcoming peace treaty between Malkuth and Kimlasca. She finally agrees to take Aslan's hand in marriage.

Sub Event 74: Dark Wings Key

Travel to Grand Chokmah and go west from the port area. A cutscene features the Dark Wings again. By the end of it, you receive the Key of Darkness.

Sub Event 75: Reflecting Water

TLP	Grand Chokmah/Engeve + 300, Grand Chokmah/St. Binah + 300, Grand Chokmah/Chesedonia + 300, Grand Chokmah/Keterberg + 300
-----	--

Go to the audience room. Check the window directly behind Peony's throne for a small cutscene. Mostly informational, this cutscene speaks of the background of Peony's family. Ignore it if you're only out to get items.

SYNC

Enemy Statistics

Level	39
HP	83500

EXP	9300
Gold	16000
ATK	543
DEF	537
Fonic ATK	261
Fonic DEF	462
Elemental Weakness	None
Elemental Resistance	None
Item	Spirit Ring(100%)

Sync is the first foe you've encountered for a while that actually poses a threat. He's heavily endowed with a variety of powerful Artes that eradicate large chunks of HP very quickly. He's also very fast and very difficult to stun, making combos, your biggest asset against boss characters, tricky to land.

Even still, Sync has major gaps in his offense patterns that you can exploit. Despite their damage output, his Stone Dragon Ascent and Cyclone Blaze both have heavy windup periods. As long as you're not committing to a recovery-heavy attack, there's plenty of time to use Free Run to move away. More importantly, your best chance to initiate a risk-free strike is while he's recovering from one of those moves. Run around to Sync's back when he's kneeling, and then strike him down.

Finally, Sync tends to use a powerful Mystic Arte called Akashic Torment when his HP runs low. This attack generally knocks out any character who's within range. Avoid taking damage from this attack by backing away from Sync immediately after every combo.

Drawing a Fonic Seal

Soon after the torturous battle with Sync, a quick mini-game begins. The object of the game is to use Meiu's fire to push and move the ball of light around the Field, drawing lines that match the purple symbol on the ground. Tear helps guide you through the process, although she isn't necessarily needed. Simply trace the purple symbol on the ground to finish the game with ease.

Absent-Minded	After operating the Sephiroth, go up the elevator.
He Won't Get Away!	Discover Spinoza.
Spinoza, Unforgivable!	After the event in which the party chases Spinoza in the Albireo 3.

PUZZLE ROOM SOLUTIONS

This area is nothing less than strange. Inside you find five entrances, only one of which leads to the Sephiroth (entrance A). The other four areas are puzzle rooms. When one of the puzzles is completed, the boss of the area loses two of his Fon Artes, weakening him significantly. However, only three of the four puzzles can be completed. Attempting to do all four results in the final puzzle room being empty. Strangely enough, this is completely unnecessary. The Repair Fonbot is completely manageable with or without his abilities. That being the case, the only puzzle worth doing is the one located in entrance #3. You can obtain a Katana by completing the puzzle, making it worth the effort to stop by. Even still, if you happen to be a little underleveled when you tackle this area, you may want to solve the puzzles that eliminate the robot's strongest spells, like Explode or Raging Mist.

Entrance B

Spells Fonbot loses if puzzle is cleared: Flame Burst (Strength 400), Explode (Strength 650)

- Pillar D: Ignite it with Meiu's fire, and then push it up 1 space. Push it right 2 spaces.
- Pillar A: Light pillar on fire, pull it up 1 time. Push it up once.
- Pillar B & C: Light both on fire. Pull them both up 9 spaces. Pull them both left 1 pace.
- Pillar B: Use Meiu's attack on it to put out the fire.
- Pillar A: Use Meiu's attack on it to put out the fire.
- Pillar C: Pull it right 7 spaces.
- Pillar D: Use Meiu's attack on it to put out the fire.
- Pillar C: Pull it right 7 spaces. Push it right 2 spaces. Pull it left 2 spaces.

Entrance C

Spells Fonbot loses if puzzle is cleared: Splash (Strength 380), Icicle Rain (Strength 480)

- Ice 1: Meiu-attack it right 1 time. Attack it down 1 time. Attack it left 2 times.
- Ice 2: Attack it up 1 time.
- Ice 3: Attack it up 1 time.
- Ice 4: Attack it up 3 times.
- Ice 3: Attack it right 3 times.

Entrance D

Spells Fonbot loses if puzzle is cleared: Turbulence (Strength 360), Raging Mist (Strength 795)

Simply Meiu-attack the pillars to move them to the glowing squares. The wind blowing around can do nothing but slow you down a little. After the puzzle is finished, stand in front of either fan, to the left or right of the middle pedestal. Use Meiu's wings to float into the air just before the wind current fires. If you do it correctly, the gust of air should carry you to either the Katana or Melange Gel, depending on which side you glide in from.

Entrance E

Spells, Fonbot loses if puzzle is cleared: Rock Break (Strength 420), Eruption (Strength 540)

Meiu-attack the west pillar 1 time.
Attack the north pillar 1 time.
Attack the east pillar 4 times.
Attack the south pillar 1 time.
Attack the west pillar 9 times.

As always, you can use Free Run to evade all of Fonbot's attacks, so circle around him rapidly and pelt away at him when you see an opening. With regard to effective spells, water- and wind-based Artes wreck Fonbot pretty badly. Jade's Turbulence and Splash Artes are especially powerful against it. Abuse them, in combination with follow-up combos with Luke or Guy, for big damage.

Conversation List

Conversation Name	How to Start
Spinoza's Atonement	Capture Spinoza at Belkend.
Feeling Weird	See Mohs at the church in Daath.

OBJECTIVE CHECKLIST

- Travel to Belkend to chase down and corner Spinoza. Then proceed to Daath. When you get there, head up to the cathedral to begin a cutscene. When it finishes, walk into the church and take the door to the east. Proceed up the first staircase and enter the door to your left.

- To advance to the next dungeon, travel northeast through several hallways to get to Mt. Zaleho. However, there's a Sunlight Chamber that's obtainable. Getting to it requires a trek through the convoluted hallways of Daath's cathedral, starting from the door northwest from your location. From there, travel west, south, east, east, north, west, south, northwest, south, south, and east. Ignore the doors in the room you come to, and instead stop on the circle in the middle of the room. After collapsing to the next floor down, grab the Sunlight Chamber and move east to find a trap door that brings you back to a recognizable area.

OBJECTIVE CHECKLIST

- The path here carries no real detours. Follow it and take any of the forks in the road to grab a few extra items. The only things to take note of are the gaps in some of the bridges in this area. Most of these gaps have objects floating in them. Shoot Meiu's fire at these objects to reveal hidden walkways.
- You come to a bridge gap with a candle that's just out of range of Meiu's fire. To light the candle, defeat the nearby enemy, who then turns into a movable pillar. Push the enemy over the east ledge and use it as a stepping stone to light the candle.
- When you come to a cave, enter it. Inside are three walkways hanging horizontally over each other. Take the bottom walkway and defeat the monster. He turns into a movable pillar, which you should push off the eastern ledge. Once that's done, leave the cave and take the northwest path, which leads to the topmost floor of the area you were just in. Defeat the enemy there and push it over the east ledge, which drops it directly on top of the previous enemy. Return to the cave and head down the middle path. Use the enemies you dropped on top of each other as a bridge to light the candle and reveal the hidden bridge.
- Once you reach the end of the dungeon, use the nearby Save Point and a Wing Bottle to leave. Don't worry about the west path with the moving candles just yet; you need Meiu fire 2 to reach that area. Leave the dungeon and proceed to Belkend yet again.

Arietta is carrying a rare item called the Time Traveling Girl that you can only obtain by theft. Equip a Grass Chamber to Luke's Raging Blast or Guy's Void Tempest to equip the Steal ability. Then the attack has a small chance of stealing the item.

Unfortunately, Arietta happens to be the biggest threat to your party's existence. If you're looking to steal the Time Traveling Girl doll, it's best to eliminate Largo and Legretta first. Unfortunately, this gives her plenty of time to use Fonic and Mystic Artes to pummel your entire party into the ground. Big Bang is especially a threat, considering it nukes 1500 to 2000 of your entire party's Hit Points in one unavoidable blast.

You're going to take a lot of damage. Having both Tear and Natalia in the same party is an absolute must, since they can both support your party with healing spells. Both Largo and Legretta have attacks that you can avoid with Free Run, so run behind them and attack them for the best results. None of the Oracle Knights have much health, so giant combos ending with Mystic Artes do a lot to speed up the process.

After activating the Sephiroth, travel south to find a save point. From here, you can use a Wing Bottle to warp out of the dungeon and return to Ketterburg. However, the path south continues, leading to several items and a new section of Mt. Roneal. Although many of these areas cannot be accessed yet without Meiu fire 2, many items are still obtainable, including a Vorpall Sword.

If you decide to go on, follow the path south from Mt. Roneal until you enter the Field map again. Make an immediate left and follow the length of the mountainside until you find another entrance into the mountains. There are a few trees to the north of you, and a small snowy cliff to the west. Go to the edge of the cliff to cause the snow to fall over and create a path. Move down the path to the frozen pond below, which holds the Vorpall Sword (it's a blue object on the west end of the pond). Go north, use Meiu's wings to fly up to the left tree, and get the items above. Float up to the right tree, burn the ice blocking your path, and then follow it to get a few more items.

The path in the southwest corner of this map (just below the cliff that melts) leads to the Field map. Outside is a search point that yields several rare items. Stick around and search it a few times.

OBJECTIVE CHECKLIST

1 The red and blue flames that block specific paths in this dungeon can be removed. You need to find and defeat two specific enemies. The red enemy is midway through the dungeon, while the blue enemy is near the end, just before your fight with Van. Finding them isn't difficult, because they don't stray too far away from the main path. Once you've extinguished both the blue and red flames, you can backtrack to the beginning and pick up a few items. Some of them are chambers and status-raising herbs, so it may be worth your while to invest the time.

2 The first area of this dungeon has a six-way fork in the road, two of which are blocked by the aforementioned flames. In the middle of the room is a monument with more Fonon musical notes on it. You need to input three colored Fonons, in this order: blue, red, yellow. Take the upper-left path to get the blue Fonon, the upper-right path for the red one, and the lower-right path for the yellow one. After inputting the code, examine the monument and take the elevator into the compound.

SEPARATED PARTY SOLUTION

At one point during this venture, your party is divided into three groups of two. Luke and Tear are the initial group, but you can switch to Guy or Jade's group by standing on and examining blue circles placed throughout the dungeon. The idea is to use each group in tandem, opening up new doorways with one group that only another can use.

1 **Luke's Party:** Follow the path and use Meiu's fire on the two candles along the way (move around near the edge of the platform surrounding them until you find the correct firing spot). Meiu-attack the fork at the end and proceed north. Take the elevator down to the next floor, and then switch to Guy's group.

Guy's Party: Follow the path, taking the warp pads whenever you see them. When you come to a fork in the road containing two warps, take the north warp to find a Treat. Continue downward until you find a door, and then enter it and proceed through the second door. As you come to the second set of teleportation pads, take the south pad to find a War Hammer along the way. Proceed through the door at the end. Follow the path until you spot an enemy chilling out near a bridge with a gap near its edge. Defeat the enemy and push it through the west gap. Then switch to Jade's party.

3 **Jade's Party:** Grab the item box to the right of your location, and then proceed through the west door. Follow the path until you reach a Save Point and a Carmine Chamber. Follow the path, ignoring the nearby door you come to. You should reach another enemy who turns into a box after it's defeated. Push him off the nearby opening, and then switch to Luke.

4 **Luke's Party:** Move to the south end of the platform and travel down the west walkway. Light the candle at the end, and then proceed down the east walkway. Hit the fork at the end to open up a new path for Jade. Then go north again and head to the box Jade pushed down on the west side of the seesaw platform. Use Meiu's attack to break the box. Then switch back to Jade.

5 **Jade's Party:** Enter the newly opened gate, grabbing the Pine Gel in the opposite gate along the way. When you come to another warp room with a fork in the road, take the south route to obtain a Strike Eagle, and then backtrack to the north warp. Follow the path all the way until the block that Guy pushed over the ledge above you. Grab it, shove it over the west edge, and then switch back to Luke.

6 **Luke's Party:** Take the south elevator. Meiu-attack the fork to the east of your location. Then hop over to the seesaw and destroy the block Jade pushed over the ledge. Switch to Guy's party.

7 **Guy's Party:** Defeat the nearby enemy yet again, and push it down the opening to the east of your location. Switch over to Luke's group again.

8 **Luke's Party:** Travel left and hit another fork with Meiu's attack. Now that the doors to the center platform are open, switch over to both Guy and Jade's groups and have them meet up. Then defeat the gray enemy at the bottom of the circular platform to remove the blue flames to the south of your location. Switch over to Luke and move through the new doorway to reform your party.

Van has no resistance to spells, so casters such as Jade, Tear, and Anise are very useful during this fight. It's too risky to get close to Van, who's sporting a myriad of close-range attacks that can eradicate your Hit Points with relative ease. Use spells from afar to create openings for combos. Use Luke to distract Van by Free Running around his close-range maneuvers. If Van gets stunned by a spell, run in and take advantage of the opening to land a combination. Pay no attention to his spell abilities; they're relatively weak. Evade them using Free Run, and pummel him in the back while he's recovering.

PART 5

Sub Event Mayhem

At this point in the game many different additional Sub Events can be completed. They aren't necessary to proceed through the main storyline, but they often yield additional items and story elements. It's worth taking the time to do them for the sake of fun and completion. With that in mind, pay very close attention to the Sub Event sections and use them in combination with the objective checklists. Many Sub Events are only covered in the Chapter 5 (Important Sub Events) because of their size, so refer back to that section if you're pointed that direction.

OBJECTIVE CHECKLIST

1

Make your way to the Drawing Room. Speak to any of the people at the dining room table to receive the "Lost Child" Title. Move to the next room over and speak to Ramdas to obtain a few letters from your old friends. When ready, head down to the Batcul harbor and take the fairy to Sheridan.

2

Go to the Sheridan meeting hall. After Noelle affectionately says, "Hello," take care of Sub Event 77 then leave town to hop on board the Albiore once again.

3

Travel to Yulia City. Enter Tear's bedroom and head to the flower garden behind it to find her. When finished, board the Albiore again then go to Daath.

4

Anise greets you upon entering Daath. Travel to the Cathedral afterwards. Climb up to Ian's chamber afterwards and speak with him. When all is done, leave Daath and board the Albiore yet again.

5

Sub Event 79 is now open, so go check it out if you're looking to gain another piece of equipment. After that, make your way to Fallen St. Binah. Walk up to Elder McGovern to find out about Asch's whereabouts. Take care of Sub Event 80 then continue to Shurrey Hill afterwards. Travel inside to initiate a scene, then exit out and go back to St. Binah. You'll end up in Grand Chokmah, so head to the audience room for another cinematic.

6

Leave Grand Chokmah through the front entrance. Advance to Batcul and head to the front gates of the castle.

Sub Event 76: Jozette & Aslan (3 of 5)

A cinematic occurs automatically as you enter the harbor. Cecille explains that she's received permission to marry Aslan.

Sub Event 77: Barrel Smash

While in Sheridan, speak to the man on the east side of town. You can play another mini game for 1000 Gald. Use Mieu's attack to break the barrels in the ring. Obtain as many items as possible before time runs out.

Sub Event 78: Kitty

Travel to the 3rd floor of Keterburg hotel. Speak to the orange boy dressed as a cat. The enemies in question are the Behemoth, Sandworm, and Replicantis. Unfortunately, the Replicantis can only be fought in the Replica Facility labeled "The Abyss", which is only accessible during your second play through. The Sandworm is fought during the "Refined Flightstone" Sub Event. Completing this quest obtains the "Monster Collector" Title for Tear.

Sub Event 79: Blacksmith (3 of 3)

After Guy rejoins your group, go to Sheridan. Speak to the Blacksmith again to create another item. Keep in mind that both the Fullmetal Edge and Golden Armor are needed to complete the collector's book, so you'll need to play through the game twice to get both items.

Item List

Menu Choice	Item Made
1st Choice	Full Metal Edge
2nd Choice	Full Metal Fang
3rd Choice	Golden Armor

Sub Event 80: Onion Soup

While in Fallen St. Binah, enter the town Inn. Check the bed next to Glenn McGovern to find the recipe for Onion Soup!

Sub Event 81: Lawman

Travel to Chesedonia after speaking to Emperor Peony. After making a level 3 item or higher, speak to Din inside his shop. Jade will receive the "Lawman" Title.

Sub Event 82: Mushroom Road

Enter Duke Fabre's mansion after speaking with King Ingobert. Luke's mother is sick and needs a special medicine that can only be made from Death Cap Mushrooms. To get them, you must travel to Mushroom Road, a hidden dungeon found within a river that runs north from Kaitzur. Refer to the Chapter 5 (Important Sub Events) for maps and a detailed description of the quest.

Sub Event 83: Guy's Blade (2 of 3)

After talking with King Ingobert, enter Duke Fabre's mansion. Speak with Pere, who's standing on front of the sword that's at the entrance to the mansion.

Sub Event 84: Town Formation

Go to Guy and Pere's room in Duke Fabre's mansion. Check the book on the shelf in the west side of the room for a short history lesson about Batcul.

Sub Event 85: Berserk

Obtain 256 encounters in Hard Mode. Now enter the coliseum. Travel through the east corridor then go through the northern door to enter the audience stands. Speak to the man standing on the platform to receive the "Berserk" Title for Luke.

Sub Event 86: Jozette & Aslan (4 of 5)

Walk down to Batcul's harbor again. Cecille has received news of Aslan's death. The party remains speechless as she strides away quietly.

Sub Event 87: Engeve's Monster Extermination

TLP	Engeve/Engeve + 500, Engeve/St. Binah + 500, Engeve/Chesedonia + 1000, Engeve/Sheridan + 500, St. Binah/Engeve + 300
-----	--

Travel to Engeve and speak to Rose; she's standing near her house. She speaks of the recent monster raids on Engeve. Afterwards, talk to the people selling fruits to the west. One of them will give you a Gourmet Apple, which can be used to lure the monsters out. Speak to Rose again to start a short sequence involving seven consecutive battles. None of the enemies are difficult to defeat though, so exterminate them swiftly, then move along. You'll receive Rose's Charm for your efforts.

Sub Event 88: Nebilim

(2 of 6)

Fly out to Fallen St. Binah. Speak to Elder McGovern, who mentions his past skirmishes with the woman who once held a weapon called Blood Pain. Go to the town Inn and speak to Glenn McGovern. He wants you to find his father's lost pig. Walk out to the world map and grab the pig hiding amongst the bushes just outside of town, then return to Glenn. You'll receive the Blood Pain in the end.

Sub Event 89: Deciphering Ancient Texts

(2 of 5)

Chat with Elder McGovern to find out a little more about the ancient texts you received in Grand Chokmah.

Sub Event 90: Deciphering Ancient Texts

(3 of 5)

Travel to Chesedonia and enter the northern Inn. Enter the middle door on the second floor and check the desk on your right. Now fly out to Keterburg. Walk near the statue in the center of the first area of town. After a short cutscene is triggered, head up to the park area on the north end of town and examine the back of the similar statue there. Finally, make your way out to Sheridan. Enter the northwestern end of town to initiate another scene that eventually leads to Jade learning the arte "Absolute".

Sub Event 91: Deciphering Ancient Texts

(4 of 5)

Go to Belkend and search the cabinet in the room where you first met Spinoza. Now move out to Kaitzur Port. A man there immediately hands you another ancient stone. After you've met Asch in Grand Chokmah later in the game, make your way out to the Radiation Gate and Jade will receive the "Prism Sword" arte.

Sub Event 92: Belkend Office Room

TLP	Belkend/Chesedonia + 300, Belkend/Sheridan + 300
-----	--

Enter Belkend and check out the right side of the laboratory. The boxes that used to be there are gone now. Examine the yellow machine that's nearby to cause it to drive upwards. Afterwards, go up and turn around the corner. There's a hole in the north gate above you. Use Mieu's fire to shoot through it and hit a switch on the other side. When a hole opens up in the ground, use Mieu's attack on it. Enter the door that opens to find a Chamber. You can also click on the nearby bookshelf to have it open it up, revealing a path to a room in the lab.

Sub Event 93: The Formation of Yulia City

Fly out to Yulia City. Enter Tear's home and head through the door in the back of the dining room. Check the book shelf in the room.

Sub Event 94: Ant Lion Man...?

(5 of 5)

TLP	Chesedonia/Engeve + 200, Chesedonia/St. Binah + 200, Chesedonia/Chesedonia + 500, Chesedonia/Sheridan + 500, Chesedonia/Keterburg + 200
-----	---

He's back and he's weirder than ever. The Ant Lion Man is in the same place he always is—in the alleyway near the armor shop in southern Chesedonia. This time he doesn't want any items though—he simply wants more ships to visit Chesedonia so more visitors give him items. After speaking to him, you'll get the recipe for Gratin.

Sub Event 95: Fonic Sight

(1 of 2)

Make your way to Grand Chokmah and speak to the blonde haired man southwest of the Bar (west of the harbor). When the boy runs off, fly out to Sheridan and enter the Assembly Hall. Enter the right room on the second floor and speak with female near the stove.

Sub Event 96: Jade's Past

(2 of 4)

Make your way out to Sheridan. Speak with the yellow cheagle in the meeting hall. It seems as though Dist had something to do with this creature's creation...

Sub Event 97: Rocket Tower

TLP	Sheridan/Sheridan + 100
-----	-------------------------

Fly out to Sheridan and advance to the rocket tower in the northeast end of town. Take the elevator to the top of the tower and speak to the man there.

Sub Event 98: Rappig Hunt

Head to Emperor Peony's chamber in Grand Chokmah. After viewing a scene with our favorite monarch, exit out of his room and look for his missing Rappigs. Each is named after a character close to the Emperor. Jade is hiding behind the left stairwell outside of Peony's Chamber. Nephry is hiding near the window in the castle throne room. The Professor is in the far east room of the second floor of the castle. Aslan is located in the east room on the first floor. Finally, Saphir appears right outside of the room Aslan is in. Report back to Peony for your reward: Jade receives the "Emperor's Best Friend" Title.

Conversation List

Conversation Name	How to Start
The Emperor's Ideal Woman	Occurs after completing this sub event and leaving Peony's chamber.

Sub Event 99: Abyssman

(Second play through only)

This Sub Event is only possible during your second play through the game. Proceed to Emperor Peony's chamber in Grand Chokmah and speak to the maid there. She'll give each and every character on your team a new Title, each of which gives them a super hero style costume!

Sub Event 100: Overcoming Fear

Enter Grand Chokmah and proceed to the bar/harbor area. Walk west within that area to trigger a scene consisting of Guy carrying an injured maid home. Now head out to Keterburg Port for another scene. When finished, head out to the Chesedonia bar and speak with the bartender to obtain Guy's "Good Spirits" Title.

Sub Event 101: Keterburg Spa

Now that you have access to the spa (via the Rappig Hunt Sub Event), go to Keterburg hotel and approach the front desk. Luke receives the "Towel Boy" Title, Anise receives the "Not a Kid" Title, Natalia receives the "Tropical Butterfly" Title, Guy receives the "Aquatic Ape" Title, Tear receives the "Rental Beauty" Title, and finally, Jade receives the "Resort King" Title. Each of these Titles changes the costume of the character to swimwear!

OBJECTIVE CHECKLIST

Solar flares arc over many of the bridges in this area. Don't touch the flares! They inflict massive damage to your entire party. Avoid flares by walking on the bridge in-between its bursts.

Similar to the solar flares, lava invades paths that are a little lower to the ground than normal. The lava rises and falls at fixed intervals, so run through the path as its lowering. Some items can only be obtained by walking through lava momentarily though, so you may have no choice but to take some damage if you want the item. Keep in mind, however, that lava cannot kill your party; it'll only drop their life to 1 Hit Point.

Elemental Weakness	Water 1.25
Elemental Resistance	Earth 0.75, Fire 0.5
Items	Ruby(100%), Red Savory(100%), Livavius Ore(Steal 20%)

Use the arte menu to shutdown your party's Fire and Earth spells; the Fyr Bronc is resistant to them. Ice and water-based spells are the key to this match. Other weapons like Luke's Vorpall Sword are particularly effective here too. Swoop behind him and attack its back with a combo. Link together spells to keep the combination going for as long as possible. If you see him fly into the air, use Free Run to quickly make a retreat to avoid the incoming shockwave (which he emits just as he touches the ground). Be cautious of his tail attack; it deals massive damage to any character it hits, regardless of whether they're defending or not.

Sub Event 102: Natalia's New Technique

(2 of 2)

Enter the Daath port to witness a scene between Goldberg and Natalia's bow instructor. Natalia receives the Healing Force spell when it's finished.

Sub Event 103: Mieu Fire 2

More of a heads up than anything else, it's now possible to obtain Mieu's upgraded Mieu Fire. It's highly recommended that you do this now in order to obtain a few of the upcoming Sub Events and items. For more information on this event, look to Chapter 5 (Important Sub Events).

Sub Event 104: Nebilim

(3 of 6)

Return to the old Abandoned Factory in Baticul. In the first zone, make your way up to the northeast corner of the screen and use Mieu's wing to get up to the elevated ladder. When there, use Mieu Fire 2 on the switch to your left. Now return back to Baticul to find a new lift nearby. Take the lift to find a Sunlight Chamber and the "Holy Quelquat".

Sub Event 105: Adventurous Princess

When you've found all 29 search points in the area, enter Din's shop in Chesedonia. Equip the "Curious Princess" Title and make her the onscreen character. Speak to Din and Natalia receives the "Adventurous Princess" Title, which increases your chances of obtaining an item of value at a search point by 80%!

OBJECTIVE CHECKLIST

1 Travel to Belkend. Speak to Spinoza in the research institute, who mentions Asch has been by.

2 Now head to Mt. Roneal and make your way to the Sephiroth inside. After a myriad of cutscenes involving Asch and the Dark Wings, leave the dungeon and fly out to Baticul.

3 While in Baticul, go to the harbor. Dist mutates Mohs into a new being just before the both of them make a retreat. Afterwards, proceed to the castle to obtain Natalia's "Popular Princess" Title.

4 Advance to Chesedonia. Go to Astor's mansion and talk to him. Afterwards, head to the northern Inn to find Anise and Natalia. Jump on the Albiore and fly out to Yulia City.

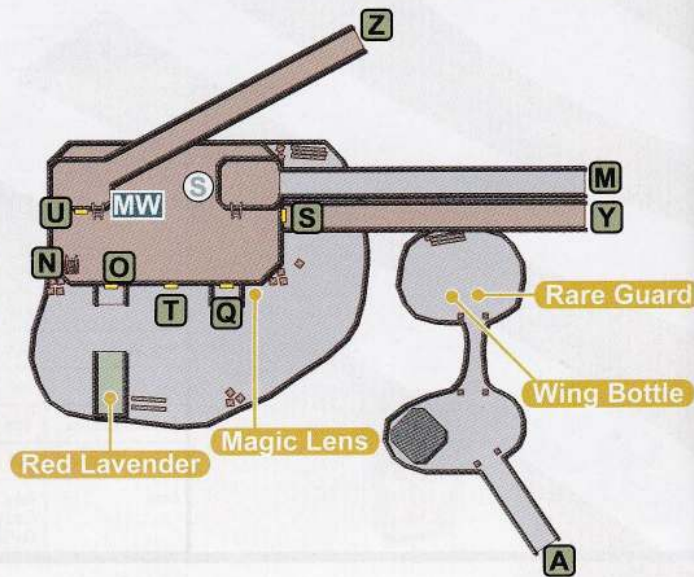

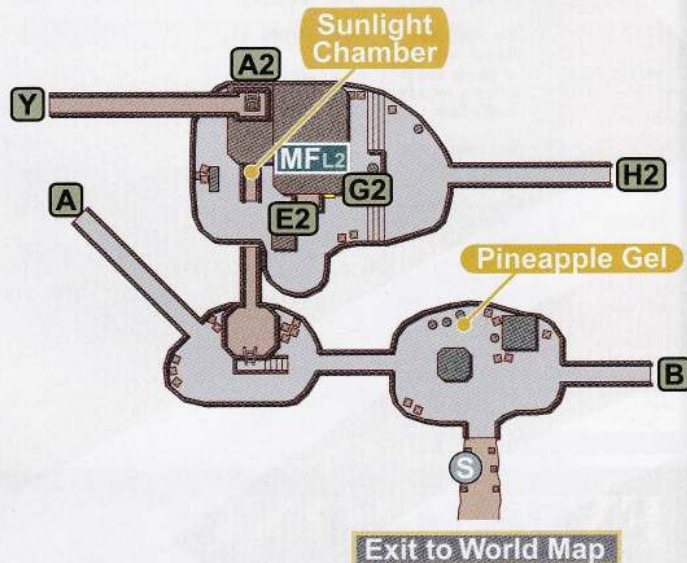

Sub Event 106: Fonc Sight (2 of 2)

Within Grand Chokmah, enter the area with the bar in it. Proceed to the next screen over to the west to find Jade's "pupil" attempting to perform the arte forbidden to him. Jade receives the "Soft Meanie" Title when it's over.

Sub Event 107: Pilgrimage

Proceed to Daath and enter the second screen (the area just outside of the chapel). Examine the east monument to be offered the choice to proceed on a pilgrimage. Selecting Tear results in a lengthy cutscene with no reward. Picking Anise, however, enables her to earn her "Grown-up Child" Title.

TLP	Engeve/Engeve + 300, Engeve/St. Binah + 500, St. Binah/Engeve + 500, St. Binah/St. Binah + 300
-----	--

Enter Engeve from the west entrance. Speak to the farmer working in the nearby field. He's in need of a particular set of seeds. Now head to the rear entrance of Rose's house. Talk to the man inside to find the names of the seeds; the Lanakear (search point #22) and the Phen (search point #19) seeds. When you have them, fly back to Engeve. Speak to the man at the back of Rose's house then talk to the farmer in the west side of town for your prize — Guy's "Hard Worker" Title.

Sub Event 110: Luke Bridge

TLP	Sheridan/Sheridan + 300, Belkend/Sheridan + 1000
-----	--

Make your way to Sheridan and speak to Aston in the assembly hall. He wants to build a bridge from Sheridan to Belkend. He needs a lot of money to do it though. Donate 1,000,000 Gald, then the rest at the Inn five times to get Luke's "Financial Investor" Title.

OBJECTIVE CHECKLIST

The layout to this area may seem quite confusing, but the majority of the puzzles here are solved with Mieu Fire 1 & 2. Use both abilities to hit any switches that might be out of reach.

A few of the indoor rooms have false floors. They're broken by using Mieu Attack or Mieu Wing on them.

Sub Event 108: Obsession (3 of 3)

Sword Dancer makes another appearance in Feres Island. To fight him, enter the fomicry lab near the end of the area for a second time then proceed outside. A sword appears just outside of the door; examine it to start the match. Handle Sword Dancer just like you have the last two times you dealt with him. Upon winning the fight, you receive the Ultimatus, a powerful sword that's perfect for Luke or Guy at this point in the game.

Just as before, Arietta is holding on to a rare item that can't be obtained anywhere else. To get it, you're going to need to equip the steal ability on an arte using a Grass Chamber. Luke's Raging Blast or Guy's Void Tempest are good choices in that regards.

When it comes to the fight itself, you've fought against her many times, but concentrate on the Liger first. The Hresvelgr is the least of your troubles, so save him for last. You'll need a little time to steal Arietta's item from her, which might be difficult since Anise is rushing her down. Since that's the case, you may opt to try and steal the item first before defeating any of the other enemies, though that may be difficult to accomplish.

Defeating Kaiser Dist XX is similar to the other two incarnations of this beast, the only difference being it doesn't have a weakness to water-based attacks this time around. Free Run around it and attack it from behind. Most of its attacks are fairly linear, so Free Run should avoid the majority of its offense capabilities. The only exception is a spinning maneuver that pummels everything surrounding it. The starting animation to this attack is noticeable though, so back away from him when you see him wind up for the attack.

Travel to the Chapel in Daath. The summit begins. When it finishes, leave the chapel and take the west corridor. When you reach the library, speak to Tear in the north end of the room. Leave Daath and fly out to the Tower of Rem when the discussion finishes.

After you've taken the elevator up you should notice a lever sticking out of the ground to your left. Examine it to open the east and west doors. Go west and use Mieu's Wing to reach the elevated ladder and score a few items. The remainder of this area consists of using the nearby ladders to climb over the closed doors and enter areas you can't from the floor below. When you find more levers to examine, do so to open more doors until you find a second elevator. Take the elevator to the next floor when you get to it.

When you're on the top floor, save your game and continue to follow the path. After you gain the Rem Capacitor, go back to the previous floor. Your objective at this point is to battle the glowing enemies on this floor and use the Rem Capacitor in-battle on an enemy. When the battle is won, any of the blue enemies you defeat will charge the capacitor by 20%. Defeating the enemy with the red light charges the device up to 120%. You only need to charge the device to 100% to move on; however, to obtain the Longinus, it must be charged to 120%. Doing so makes the machine to break more of the glass within the area, causing the Longinus spear to fall nearby (signified by a red glow below your location). With that said, the golem with the red energy light tends to run away from you. To catch up to him, close one of the doors in the area so that he can't continue to circle around the platform.

Use the elevator at the entrance of the Tower of Rem to make your way to the top. When you get there, a long cinematic is triggered and ends with you in Belkend. After Luke lies to his companions about his health, Jade calls him on his lie, receiving the "Insightful One" Title.

Sub Event 111: Jozette & Aslan (5 of 5)

Return to the Tower of Rem. Cecille is waiting at the bottom of the main elevator. You'll end up in Baticul after the scene ends, with Guy obtaining the "Dashing Gent" Title.

Sub Event 112: Tear's Fonic Hymn (2 of 2)

Move out to Daath and enter Ion's chamber. Ion's funeral takes place, revealing a new song from Tear. She learns the Judgment fonic arte in the end.

Enter Duke Fabre's mansion. After a lengthy cutscene involving Tear, proceed to the Drawing Room. When finished, run to the harbor to catch Largo before he leaves.

Sub Event 113: Viscount

Speak to Ramdas in Duke Fabre's mansion. Luke undergoes a ceremony that makes him a noble, earning him the Title of "Viscount".

Sub Event 114: Largo

Speak to King Ingobert in his chamber. He asks you to go to Chesedonia and speak to Natalia's nanny, who is currently in the southwest room of Astor's mansion. Speak to her and an additional cutscene will occur after defeating Largo later in the game.

Sub Event 115: Doctor Jade

Make a stop at Belkend. Move to the laboratory and take the following corridors; north, north, then west. Once inside a humorous cutscene involving Jade's medical technique initiates. Afterwards, Jade will receive the "Doctor Mambo" Title, which changes his costume to a doctor's outfit!

OBJECTIVE CHECKLIST

Advance all the way down to the area where you fought Van. On the way, be sure to collect some of the items that you couldn't get before (because of the red and blue flames blocking your path). Speaking of which, two new monuments can be reached just behind the first warp you come to. Place fonons in both of them to activate the warps and obtain new items. You need the Green Fonon to activate the left warp, so input the Red, Blue, and then Yellow Fonons into the right warp first. After it's activated, take the warp down to find two item boxes and the Green Fonon you need. With that taken care of, grab another Blue and Red Fonon and activate the left warp to find two more items ripe for the picking.

Largo's final form is not much different from his previous incarnations. He's big and powerful, but his attacks are extremely slow and easy to evade. Because of this, Free Run eats this guy alive. Run circles around him until you see an opening then attack him. Continue any combos you start for as long as possible using group-based attack patterns. Back up offensive characters like Guy aren't needed, so bring Anise, Jade, and Tear with you (deactivate their earth and fire spells, which Largo resists). Use them to apply support spells while you're using Luke to distract Largo's attention.

DAATH

OBJECTIVE CHECKLIST

1

Enter the Chapel. Anise drops off her new friend Florian. After that's done, initiate the Sub Event here then continue on to the Radiation Gate.

Sub Event 117: Stew

After dropping Florian off in Daath, stop by Ion's chamber. Florian is there asking Anise to make a special recipe. When the scene is finished, you'll receive the recipe for Stew. Keep in mind that this Sub event does not unlock unless you've obtained the All-Purpose Knife.

Sub Event 118: Miso Stew

Make a quick stop at Baticul and head over to Duke Fabre's mansion. Speak to Ramdas to find out about the Duke's chef leaving. You're asked to select a character to replace the cook and make Duke Fabre's guest a meal. To get the recipe for Miso Stew, you must select a character who has mastered a few recipes.

Sub Event 119: The Master of Cookery

If you have at least one character that has mastered cooking every food available, make a stop by Keterburg Hotel. Take the elevator up to the second floor and speak to Bernal, who's standing directly next to the elevator. Each of your six characters can obtain a new Title in this manner.

Mohs' defense against magic is extremely high, so deactivate the majority of your supporting party's offensive spells (although Light based magic like Tear's Holy Lance is still worth doing). I recommend a party consisting of Luke, Tear, Guy, and Jade; the majority of which has worthwhile physical strengths.

Free Run is almost useless here, save for avoiding the occasional spell. Concentrate on simply stunning Mohs with physical attacks; this opens the window for combinations. As long as your party continues to apply pressure on the mutated heretic, Mohs can do very little to dispatch your party.

Sub Event 120: Nebilim (4 of 6)

Enter Daath Church. Florian is running around the compound with a strange staff. He wants to play hide and seek, which seems like a reasonable idea considering the item he's holding might be helpful. To find him, proceed to the nearby east warp room and step on the yellow warp pad (bottom right circle). You should immediately find him, obtaining the Heart of Chaos weapon.

Sub Event 121: Little Devil

Proceed inside Daath; entering the church when you come to it. Florian needs someone to play the part of a mischievous demon in the church play. Anise decides to take the role, earning her "Little Devil" Title that changes her costume!

The first half of this area is a sequence of boss fights with small traveling breaks in-between them. The paths to each fight are extremely linear, so the maps provided can lead you to the items that they hold.

LEGRETТА

Enemy Statistics

Level	64
HP	143000
TP	800
EXP	28000
Gold	36000
ATK	738
DEF	1081
Fonic ATK	424
Fonic DEF	782
Elemental Weakness	None
Elemental Resistance	Light 0.5
Item	Spirit Symbol(100%)

Legretta confronts your party almost immediately after entering Eldrant. Spells are extremely important in this match up because of Legretta's terribly powerful mystic artes, which are all effective at close range. Her Prism Ballet, specifically, eliminates most characters in one shot, which is convenient for her considering that it carries the possibility of hitting multiple characters at a time. With that said, rely on Luke to distract Legretta's attacks at close range using Free Run. Have your other party members cast spells from a safe distance. If Legretta is ever stunned by a spell, run in and take advantage of that moment with a combination.

ASCH

Enemy Statistics

Level	62
HP	60000

Gold	2500
ATK	584
DEF	697
Fonic ATK	353
Fonic DEF	429
Elemental Weakness	None
Elemental Resistance	None
Item	Wonder Symbol(100%)

Free Run dominates this fight. Run circles around him and wait for him to attack. His first swing may nick you for a single hit, but the remainder of his combo misses, leaving him open for a pummeling. Run up and launch a combo attack then back away again. Rinse, wash, and then repeat. The only thing to avoid is using your mystic arte against Asch. Doing so triggers him to do the same; and his can potentially be fatal.

SYNC

Enemy Statistics

Level	60
HP	120000
TP	820
EXP	29800
Gold	15000
ATK	999
DEF	885
Fonic ATK	500
Fonic DEF	620
Elemental Weakness	None
Elemental Resistance	Wind 0.5, Light 0.75
Item	Mystic Symbol(100%)

Sync is similar to the way he's been in every other fight, but a lot stronger. Mystic artes that connect for full damage on any of your characters can potentially be fatal. The majority of his attacks are only effective at close range though, so pelt him with spells from afar. Use Luke as a means to distract Sync's attention away from the casters by circling around him and attacking when you see an opening.

OBJECTIVE CHECKLIST

1

After the fight with Sync, the following areas are filled with a myriad of puzzles that lead to items and other extras. However, they aren't necessary to proceed to the end of the game. If you're simply looking to finish the game, walk forward and ignore the many switches. If, however, you want more cool stuff, than pay close attention to the following section.

PUZZLE SOLUTIONS FOR VARIOUS ITEMS AND YULIA'S TOMB

1

As you first enter the area with the first spinning fork, use Mieu's fire on it to gain access to the Grandioz. Proceed to the northeast corner of the room and check the stone monument there. When finished, use Mieu Fire 2 against it to open the nearby door. Climb the nearby staircase then enter the west door you see (ignore the two spinning forks below you for now).

2

In the next area, two pillars stand in the middle of the room. Both have peculiar marks on their sides. Use Mieu's attack on the upper pillar from its east side to knock it over. When it comes to the south pillar, it's possible to knock it in two different directions. Attacking it from the south opens the way to a Fonic Sword later in this dungeon, while attacking it from the right leads to Red Lavender. Since the Fonic Sword is a rather unique and powerful weapon, attack the pillar from the south. When finished, take the nearby ladder and climb up to the fork above. Use Mieu's wing to hit the nearby fork, getting you a Special Gel. When finished, climb back down the ladder and proceed through the northern door.

3

The next room up has two levels. Ignore the second floor, which leads to the final fight with Van. The two robotic drones patrolling the room carrying a unique set of items. Defeating one of the drones with a light-based spell (like Tear's Holy Lance) causes it to drop a Light Fonstone, while killing it with a dark-based spell (like Anice's Bloody Howling) grants you access to a Dark fonstone. You need both stones to proceed forward, so grab them both.

4

Once you have the Light and Dark Fonstones, check the giant glowing stone in the middle of the room and use the Light Fonstone. The room unexpectedly flips, changing your position drastically. Proceed through the south door and ignore them switch on the floor in the next room over. Go right instead to find two ladders. Take the north-most ladder to the top and use Mieu's wing on the nearby fork. Go back down and take the next ladder over. When you reach the top, follow the path and hit the switch along the way to eventually get to the Fonic Sword. Back track to the bottom of the ladder again and press that switch to the west that you ignored earlier.

5

You should now be in the room where you knocked over those first two pillars. Take the northern ladder and walk through the newly opened door. Ignore the stone in the center of the area and proceed right to grab Fonic Gloves. Now go back to the center stone and use the Dark Fonstone.

6

Head through the south corridor. Ignore the nearby switch and examine the nearby fire reflectors; turning them so they're facing each other. Now step on the nearby switch. Now go back to the two forks you passed near the beginning of this area. Now here's where things get tricky. Shoot a bolt of Mieu Fire 2 at the reflectors you turned earlier. You don't want the fire to touch both forks, so while the fire is traveling toward the second fork, use Mieu's wing to lift yourself up and block the flame from hitting the second fork. Once finished, the path to Yulia's Tomb opens and the items inside can be procured.

Completion

The final save point in the game sits just before a staircase (with the black and white fonstone sitting in the room below it). The final battle rests beyond that staircase. At this point in the game there are several new Sub Events open, so if you want to do them, don't climb the staircase. Save your game and use a Wing Bottle to leave the dungeon. When you're ready to come back, come back and enter the room for the final battle!

Sub Event 124: Guy's Blade (3 of 3)

Return to Duke Fabre's mansion to handle the final piece of the "Guy's Blade" Sub Event. The Duke is standing directly next to the sword. Speak to him to receive the Gardios Sword, which is unfortunately slightly weaker than the swords you have already.

Sub Event 125: Nebilim (5 of 6)

After opening Yulia's Tomb, look around to find the Unicorn Horn; the final catalyst. A scene initiates, enabling you to now fight a dreadful optional boss. Refer to Chapter 5 for more information about this fight.

Sub Event 126: Music Box (6 of 7)

Go to Chesedonia; entering town from the northern entrance. Speak to the clapping woman running the shop near the town Inn. She'll give you the "Finale" music disk.

Sub Event 127: Music Box (7 of 7)

Once you've collected all of the Music Disks available, progress to Sheridan. Walk over to Ishtar's house and speak to her. Tear will receive the "Servant of Melodies" Title!

Sub Event 128: Luke's New Technique (4 of 4)

Head out to Daath. Enter the church and go through the east door. Climb the nearby staircase then proceed through the west door. Go through the door on the northeast corner of the ledge and follow the path to a messy library. Speak to the man in the north end of the room. He has another Technique Book, but he needs 150,000 Gald for it. Knowing Luke's mother is always good for an extra buck, swing by Baticul and speak to her. After receiving the money you need, go back to the man to obtain Sonic Blast.

Sub Event 129: Decisive Battle

Make another stop in Grand Chokmah and walk to the castle audience room. The Emperor is up to his weird schemes again, buying the entire party a new set of "heroic" costumes. Equip the new Titles gained to wear the costume, those Titles being Luke's "Wild Saber", Tear's "Cool Chick", Jade's "Evil Fonist?", Anise's "Childish", Guy's "Blade Master", and Natalia's "Imperial Will".

Sub Event 130: Grand Master Chef

With Anise as the on screen character and her "Little Big Chef" Title selected, advance to Grand Chokmah. Go to the Malkuth Military Base and speak to Sesemann. When all is done, she'll receive the "Grand Master Chef" Title.

Sub Event 131: Chaser

After entering Nam Cobanda Isle at least once, go to Sheridan and enter the assembly hall. Guy will receive a new Title.

Sub Event 132: Jade's Past (4 of 4)

After completing the second and third parts to the Nebilim Sub Events, enter grand Chokmah and proceed to the Malkuth Military Base.

Sub Event 133: Legretta's Note

Travel to Yulia City and enter the flower garden in Tear's home. Tear finds a letter from Legretta on Van's tombstone, which explains why she joined him.

Sub Event 134: Tactical Leader

After Nebilim's defeat, go to Baticul and enter Duke Fabre's mansion. Speak to Pere, who's still in his room. Luke will receive the "Tactical Leader" Title.

There are two segments to this fight. The first features a weaker version of Van that you've mostly already dealt with, save for a few new Mystic Artes. The second Van features similar moves in combination with a new set of attacks and a huge upgrade in stats. This version of Van wields an amazing set of Mystic Artes, all of which he uses frequently. They deal massive damage to anything around him, often being a fatal blow. An important aspect of this fight is learning to evade these techniques using the Back Dash or Free Run. They're starting periods aren't terribly slow, but there's usually just enough time to see them initiate. Another effective way to deal with them is to react to their starting periods and immediately use your Over Limit burst, which knocks him out of the attack completely. In addition to stopping the technique, Van ends up floored for a short period of time, wasting a portion of the remainder of his Over Limit time and giving you time to nail him with a few grounded hits. You can then circle around him waiting for an attack to evade then nail him with a Mystic Arte combo; effectively using the remainder of your Over Limit gauge.

Back up spells are also important elements to this fight. Van is very difficult to stun with attacks, so using spells from afar gives you a safe opening to attack when a direct assault isn't working. Combos started against Van won't last long usually (he'll use an Over Limit to break out of it if he has the meter to do so), but they're still worth going for in order to earn as much free damage as possible.

Once Tear starts to sing her final hymn, the stage turns blue. From this point on, your party stops taking damage. With the chance of defeat out of sight, rush into action and take your final swings at your former master!

Final Note

Once the game is finished you'll be asked to save your game again. Suggestion: DO NOT save your game over your previous save files. Instead, save it in a new slot. It's possible to go through some of the elements found during your second run through the game without actually playing through it a second time. Simply having a beaten save file enables you to access Mushroom Road and the Replica Laboratory, so access your old save file and head to those areas if you're feeling up for the challenge!

Baticuloon

A special mini game unlocks after defeating Single Match mode. To play the game, speak to the left-most woman at the coliseum counter. After paying a 1000 Gold fee, the game initiates. Destroy all of the balloons on the field using normal attacks to finish the game.

GETTING MIEU FIRE 2

Note: You must complete Sub Event 57: Choral Castle Portrait to obtain Mieu Fire 2.

Fly out to Keterburg. Go to the west end of Keterburg hotel's entrance and speak to Shiba and Peko in the plaza nearby. After a few funny mishaps, you'll be transported to Mt. Zaleho. The lava here is now dried over, enabling you to get to a new area. Follow the path and check all of the areas with dried lava; picking up any items you may have missed before. You should eventually come to a dried path that curves upwards into an unforeseen cave. Enter it to find a glowing pad with the crystal for Mieu Fire 2. With it in hand, the two sets of torches to your left and right can be reached. The right torch leads to a Special Gel and the Flamberge: a powerful fire-based sword.

With this ability in hand, several areas that were unreachable before open up. The maps provided in each walkthrough lists which areas can be affected by Mieu Fire. As a reminder, Cheagle Woods, Shurrey Hill, Ortion Caverns, and Mt. Roneal's sephiroth all have new areas to explore with this ability.

REFINED FONSTONE

Remember the second section of Mt. Roneal where you found the Vorpil Sword? Well go there again using the Albiore. The entrance is located on the west end of the same continent; on the same level as the normal entrance to Mt. Roneal.

Once inside, go northwest into the ruins to find nine movable torches spread throughout a long path. These pillars need to be aligned in such a manner that Mieu Fire 2 travels through and hits all of them in one shot. To do so, take note of the three squares lined down the middle of this path. They're to be used as markers. At the top square, place one torch on top of it, then another to the right of it one square up. Place another torch to the left of it, but one square down from its location (forming a slanted line). At the middle square do, place one torch on top of it, then place another torch to the left of it one square up. Place another torch to its right one square down. The bottom square is to be treated like the top square; forming a diagonal line of torches in the same direction.

Leave the ruins and return to the next screen down. Go east and use Mieu's Wing to fly up the rightmost tree. Break the ice crystal in your way and proceed into the ruins. Mieu Fire the first torch you see to open the door. When you come to another room with two torches inside, simply fire a Mieu

Fire 2 bolt through both in one shot. Continue through to find another room with two more torches. There's a wall in-between the two, so you can't simply fire through the both of them. Instead, fire a shot diagonally through the first torch and aim it towards the ice crystal to the north of your location. If fired at the right angle, the shot should bounce off of the ice and hit the second torch. Once completed, move into the next room and follow the path until you find another ice crystal. Push the crystal over to the square marker on the ground.

Now backtrack a bit to the same area where the Vorpil Sword was found. Exit Mt. Roneal through the southeast path and make an immediately left. Go to the south entrance of the opposite end of Mt. Roneal (where the sephiroth is located). When you're there, continue heading north until you find a bridge baring east. Follow the path until you see a road split then take the south path. Move the crystal you come to over the square marker, then back track and take the north path in the split.

With everything in place, stand over the square marker and fire a diagonal Mieu Fire 2 shot southwest so that it streams through the three torches below you and hits the ice crystal at the other end of the room. If done correctly, it should bounce off of the two nearby crystals and hit every single torch in the area. When finished, proceed back to the other segment of Mt. Roneal and walk through the door that opens. It leads to a secluded area of the field map that holds search point (do a little looking around and follow the path until you find it on a hill). Examine that search point to find the Refined Fonstone.

This item is an upgrade to the Albiore. A power bar appears on the right side of the screen after it has been obtained. This bar slowly fills while moving forward. At maximum strength, the Albiore creates a shield around itself that enables it to fly through storms, whirlpools, and various other ship

hazards. This enables you to reach a number of locations that aren't normally accessible.

SANDWORM

A giant sand tornado is west of the Zao Ruins. With the Refined Fonstone in hand, fly through the tornado then land. Travel southeast after you land and walk around the desert a bit. You should see a red worm swimming through the sand. Catch up to him and fight the creature to obtain the Gae Bolg (a unique spear for Jade) and to finish part of the "Kitty" Sub Event.

The Reason for Becoming Noble Thieves	[Nam Cobanda Isle] A while after Luke acquires the Title "Noble Rogue"

The northwest end of the Radesia continent has a few whirlpools blocking the path to a cave. These whirlpools can be bypassed using the Albiore's Refine Flightstone abilities. Doing so, enter Nam Cobanda Isle: the secret home of the Dark Wing's.

Once inside, climb the ladder up and go south to find York. When you're done talking to him, head right until you find a blue door. Enter the room and go all the way the back door and enter it. A discussion about the island's defense system occurs, ending with its deactivation (enabling you to enter the island from the air now). When finished, go left and enter the south door (you need The Key of Darkness to get in). After a lengthy conversation about the Dark Wing Gang's past, Luke receives the "Noble Rogue" Title.

NAM COBANDA SUB EVENTS

Cat Cat Kitty Cat

Speak to the Anti Lion Man look-a-like here. He asks Luke who the most important to him is. Select a character and they'll disappear. Pay the jerk 76,500 Gold to find your missing party member and obtain Anise's Cat Cat kitty Cat Title!

Ant Lion Man's Lucky Bag

The rest of the Anti Lion Man Sub Events must be completed to unlock this. When they're finished, go to Nam Cobanda and speak to the Ant Lion Man behind the counter there. Pay him 150,000 Gold and you'll receive all of the old items the Ant Lion Man took from you plus a new addition: The Anti Lion Man doll!

Movie Player

In the same room where you deactivated Nam Cobanda's defense system, speak to the kid standing next to the video screen to open up the movie player. Any movie you've previously seen can be watched here!

Star of Malkuth

Speak to Ellion, the boy dressed in the co outfit. He misses his two brothers, who left home in search of adventure. Exit Nam Cobanda and go to Yulia City. Enter the far north warp on the first floor of town to find Yutan. Now move out to Baticul and go to the harbor. Misika is there, but he wants to find Yutan first before leaving.

Now go to Engeve to find out about a kidnapping, which Yutan is of course involved in. Proceed to Cheagle Woods to find the culprits and find Yutan again, then head out to Baticul to reunite him with Misika. You'll return to Nam Cobanda and Natalia will receive the "Star of Malkuth" Title.

Music Box (5 of 7)

Go to the far west side of the video room in Nam Cobanda (where the defense mechanism was originally activated). There's a Katz hidden in the left corner, so examine it. She'll give you the Comedy music disc when all is done.

TALES OF DRAGON BUSTER

Note: You must complete the Star of Malkath first.

While in Nam Cobanda Isle, talk to Ellion while he's behind the counter of his shop. He needs a Giant Fish Bone (search point #8) to finish a game he's been working on. When you receive it, give the item to him then walk over two stands to your left to the Dragon Buster stand. Talk to Ellion again then examine the box to your left to play the game!

SPECIAL ENDING

Beating the game with a Staff or Helmet in your inventory initiates a special ending. Tear (as a princess), runs out to greet and thank you for saving the day. After obtaining this ending, speak to Ellion to receive the "Dragon Buster" Title, changing your costume to that of the original Dragon Buster's. Another Title labeled "Dragon Buster?" is obtained by getting the princess ending again on your second playthrough.

ITEM COLLECTOR SUB.EVENT

Proceed to Daath and head into the church. Enter the library (western room) and speak to a man dressed in purple. Once you've completed the collector's book, go to Daath's entrance area for a scene near the Inn (Jade receives the "Item Collector" Title).

For another short scene, go back to the librarian. Now that you have Jade's new Title, a special shop appears near the Inn in Grand Chokmah!

Fly out to Chesedonia and speak with Astor. Now travel to Baticul and speak with Suzanne to receive Luke's "Vagabond Son" Title. Now make your way out to Yulia City and enter the area just before Tear's home. Go west and climb down the stairs in the corner of the room. Talk to the person there to receive Tear's "Flower of the Qliphoth" Title. Now move out to Keterburg. Speak with Nephry to obtain the "Gambler at Heart" Title for Jade. Now go to Daath's Fourth Stone Monument. Walk inside a bit to get Anise's "Mini Maven" Title. Now go to Sheridan. Advance to the northeast section of town then proceed to the lower right corner of the screen. Guy receives the "Fontech Scholar" Title. Finally, make a stop in Baticul and walk towards the Inn. Natalia will receive the "Beloved Princess" Title.

HOPELESS DREAMER

After entering Nam Cobanda Isle at least once, go to Sheridan and enter the Meeting Hall. After Guy explores his feelings for machinery, he decides to ask about taking the Albiore for a spin. By the end of it, you'll receive his "Hopeless Dreamer" Title.

OBJECTIVE CHECKLIST

1 There's a cave directly to the east of Ortion Caverns with whirlpools in front of it. Use the Refined Flightstone's abilities to glide through the pools and enter the cave. The new area happens to be a second part to Ortion Cavern.

2 The escalator at the beginning of this area is deactivated by shooting Mieu Fire 2 at the switch on the opposite end. The second escalator is stopped in the same way, but you have to bounce Mieu's Fire off of the yellow crystallized wall to your west to hit it.

3 Several Cheagles here are in captivity and need your help to escape. Release them from their cages by using Mieu Fire 2 to hit the switches that open the cage. In some cases you may have to bounce the fire off

4 The final Cheagle in this dungeon has nowhere to run regardless of whether or not his cage is opened. To free him, take note of the torches surrounding the cannon in the west end of this area. Starting from the bottom right torch, fire a Mieu shot northeast that hits the torch then bounces off of the crystal sheet behind it. If done correctly, it should bounce and hit every torch around the gun, hitting the lever to fire the gun at the end. The gun blows a hole into the wall near the Cheagle, giving it a place to run. Keep in mind that a few beasts invade your location after this is done, but none of them are difficult to deal with. Pummel them and exit the dungeon.

5 After leaving the dungeon, go to Cheagle Woods and speak to the Cheagle Elder. As thanks for saving his beloved family, you'll receive a Holy Seal and a Dark Seal.

EXPLANATION

After clearing the Absorption Gate and just after Natalia rejoins the party, enter Duke Fabre's mansion. Luke's mother is sick and needs a special medicine that can only be made from Death Cap Mushrooms. To get them, you must travel to Mushroom Road, a hidden dungeon found within a river the runs north from Kaitzur (and east of Chesedonia). Land in the water and follow the river up the path to find the hidden lake that holds mushroom road.

When you first enter Mushroom Road you'll find Asch standing there. It's possible to use him within this dungeon as a replacement for Luke, but nowhere else. Upon leaving the dungeon, Asch leaves the party again. If you decide to return to the dungeon later, Asch randomly shows himself again.

The Mushrooms in this area can be shot with Mieu's Fire, revealing either items or another enemy. The Death Cap is near a northern exit to the field map. This exit leads to a Search Point that contains the Greater Flightstone, which enables you to land in more areas. Once it and the Deathcap Mushroom are obtained, take it back to Ramdas in Luke's mansion to finish the quest.

NEBILIM (6 OF 6)

Once all of the catalysts have been gathered, a powerful optional boss can be fought. From Keterburg, fly northeast; using the Albiore's Refined Fonstone dash to blast through a snow storm on the west edge of the island. Once there, go to the northwest corner of the area and look around. There's a peculiar looking mountain in the area with a crack in it. Find it then land the Albiore to enter a new area.

Once Nebilim is defeated, you must go to Grand Chokmah and speak to Peony. Once finished, go to Daath and talk to Tritheim (do not have the catalyst weapons equipped while doing this, they need to be in your inventory). The weapons awaken once finished, enabling them to gain stronger stats every time you kill an enemy with them. Over time they can become the strongest weapons in the game.

Nebilim is easily the hardest fight in *Tales of the Abyss*. Her statistics are through the roof, and she has the strongest set of spells and abilities available. It's no exaggeration to say that preparation is the key to winning this fight. Loads of items are needed to keep your party's statistics high while Nebilim constantly whittles them down. Only the finest of equipment will do in a match up like this, so it's best to earn the weapons in the Coliseum before dealing with this cretin.

On a final note, Nebilim happens to carry the strongest Capacity Core in the game on her. As always, it can only be stolen, so take measures to steal the item early on in the match before she starts using her more potent spells.

THE LOWDOWN

Fly out to Sheridan. Head to the northwest corner of town (the same area where you first met the Sheridan scientists). After watching a lengthy scene between two scientists and Dists old tests, go to the town Meeting Hall to find Shiba and Peko yet again. After speaking to him about Ortion Cavern, he offers his services. Talk to him again to warp out to the caverns.

The Replica Lab is an optional dungeon with a variety of new items and enemies in it. The goal of the dungeon is to destroy all of the Fomicry machines inside. Use Mieu's attack to destroy a machine when you find one. When you near the end of the dungeon, replicas of the Oracle Knights show themselves, along with a unique enemy: the Replicantis!

SHOPS

Base – The “base” cost of each item, not necessarily what the shop charges for it. Some items may have a very low base cost but are still sold for major Gald.

Required TLP – The type and amount of TLP (Town Link Points) you need for the shop to carry the item. As you perform certain Sub Events, you acquire TLP, which affects the distribution of items to shops across the world. The more TLP from a town you have, the cheaper items become when that town is the supplier! The following columns show the price changes for each item at certain TLP amounts.

* = The prices in this column are not affected by TLP. Instead, the price listed is gained only when Jade has the “Guardian of the Law” Title.

Shop stock and prices are also affected by in-game Events. Some items may appear but will show as Sold Out! until you reach certain story points or acquire a certain amount of TLP. Check the lists to find when new stock is made available for you.

COOKING

Each character has a progress rating for each individual recipe they cook. Cooking a recipe raises that rating. The higher the rating, the easier it is for the character to cook the dish without failing.

Remember that when it comes to cooking, you can often substitute ingredients of the same food type. A recipe requiring "any bread" can use normal Bread or Engeve Bread. You can use any kind of meat or fish to make Fried Chicken!

Characters with the right amount of training in cookery automatically add their own touches to some recipes, resulting in specialty dishes. These use extra ingredients, but have added effects as well.

REPLAY GAME BONUSES

NEW GAME +

After beating the game you're prompted to save your file again. This save file has a star next to it, symbolizing that it's a clear file. These files can be accessed to start the game over from the beginning again, but with one catch. The Grade Points you earned throughout the game can be used to buy starting bonuses. These bonuses range from carrying some of your beloved items over to your new venture to earning double the amount of experience points per battle. In addition to the Grade Shop, many items, Sub Events, and dungeons can only be procured your second time through. If you're attempting to fill out your Collector's Book, you'll very much want to play through the game a second time through.

Grade Shop Purchase List

Upgrade	Price	Description
Increase Over Limit	450	Increase the speed at which the Over Limit gauge fills up.

ADAM DEATS' ACKNOWLEDGMENTS

I would like to thank everyone that worked on this project, specifically Greg, Christian Sumner, and Brent Gann. They've been a supportive bunch through a very difficult undertaking. I would also like to thank Namco for creating what might be the strongest effort in the "Tales" series. Last but not least, I would like to thank my girlfriend Jennifer for her patience and constant support.

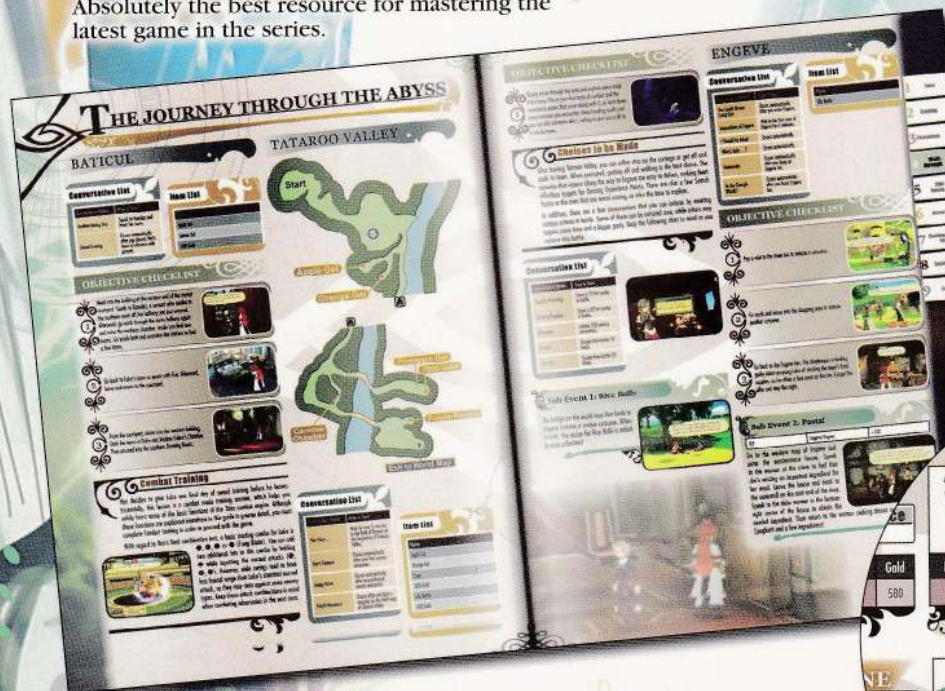

A STOLEN PAST AND AN ANCIENT PROPHECY

Luke fon Fabre remembers nothing of his past before his kidnapping seven years ago. Since then, those who love him have kept him within his family's manor for his own protection. However, Luke seems inextricably bound to an age-old prophecy known as the Score, and the workings of the Order of Lorelei—the religion charged with keeping the Score—thrust Luke into the outside world.

Unable to distinguish friend from enemy, Luke must adapt to the new world in which he finds himself and learn about friendship, duty, choice, and sacrifice. With his world collapsing around him, will Luke be its savior or destroyer? Your choices decide his destiny—and the fate of the world.

LIGER QUEEN

Enemy Statistics

Level	6
HP	3400
TP	100
EXP	175
Gold	1000
ATK	78
DEF	83
Fire ATK	72
Fire DEF	80
Elemental Weakness	N/A
Elemental Resistance	Earth D.E. Wind D.S.
Item Drops	Life Beret (100%), Sapph (100%)

The Liger Queen isn't stunned by physical attacks unless she's recovering from a move. Since the majority of her attacks tend to have a heavy wind-up period, run toward her until she starts to do an attack, and then guard or perform a Backstep (AD S+K). Left Arrow Stick away from enemy) to avoid it. When you recover from either defensive maneuver, attack the Liger Queen with your most damaging combo.

Speaking of damaging combos, the Liger Queen is vulnerable to the sleep status effect. Use's Nightmare Act causes this effect, enabling you to send the ravenous beast to dreamland, if you're looking for a safe way to approach it. You can also manually initiate Nightmare just before you commence a combo with Luke, timing it so it connects just after you finish Luke's combo. Regardless of whether or not the sleep status effect occurs, you should be able to link another combo with Luke just as you recover from your last attack, for a substantial amount of damage.

After a specific amount of the Liger Queen's HP is depleted, Jade gives you a helping hand. Your objective is to keep the Liger Queen away from Jade for as long as possible, which should give him enough time to cast his devastating Force Arts.
